

BEACON ATHLETICS
2010 CATALOG

FOR FACILITIES, FIELD MAINTENANCE, GAME & PRACTICE EQUIPMENT, TRAINING & CONDITIONING

www.BeaconAthletics.com

This means superior value.

And that's a promise.

Wherever you see the "Beacon Built" symbol in this catalog, you'll know you're looking at a product with superior value.

These products are Made in the USA and have met our most stringent specifications. Over 60 years of experience has been put into the product design, material specifications, and craftsmanship.

Our Streamliner Field Chalkers probably best exemplify what "Beacon Built" really means. It's about applying our 6 decades of expertise and making a better product.

If it's important to you, it's important to us.

The Streamliner can be found on page 52

THE "BEACON BUILT" STREAMLINER	
SUPERIOR VALUE	PRODUCT DESIGN
High-efficiency reduces chalk use by 30-40%	Flexible Brush Agitator gives you better line quality
Built to last, reduces repair & replacement costs	Retractable Handle improves transport and storage
MATERIAL SPECS	CRAFTSMANSHIP
Durable molded hopper reduces bridging	Robot-welded for consistent quality
Heavy-duty steel frame provides a stable platform	Each part inspected prior to assembly on-site at Beacon

The Streamliner Field Chalkers best represent the "Beacon Built" model.

Save & Improve

Need an ANNUAL PURCHASING PROGRAM for your field maintenance equipment and supplies? We've got what you need.

Beacon Athletics has a purchasing program that can save you time and money. Our experts can help plan construction or renovation projects, develop standardized maintenance practices specific to your organization, or present yearly training for your seasonal employees. The options are limitless. **Call Beacon's Paul Zwaska for more information.**

Greener than ever.

Our corporate color has always been green, and we continue to take that a step further by doing what we can to protect the environment.

Our catalog is printed using the "greenest" paper we could find. Our catalog paper is FSC certified, contains 30% post consumer recovered fiber. What this all means is we're staying true to who we are and who you are — people who love the outdoors.

It all starts here.

Our Facility Support Group can help turn your vision into reality

Having worked with athletic facilities across the country, we've seen some truly amazing things happen. Before your shovel even breaks ground on a new or existing project, give us a call. Our involvement in the planning stages

can bring significant added value to a project, while ensuring fields match the intended level of play as well as your organization's current capabilities for maintenance of the facility.

Our Facility Support Group specializes in design engineering, custom product design, and facility design. Together with our team of Product Specialists, we'll help you realize your vision.

“ *With technical advice from the Beacon Facility Support Group, we constructed a state-of-the-art baseball & softball complex from the ground up. Not only did they map out every step of the process, they had all the products we needed to complete the project. We couldn't have done it without Beacon Athletics.* **”**

— Tim Osterday, Sieg Field Project Coordinator
Sieg Foundation, Darlington, WI

Whether you're planning a new facility or looking to revive an existing one, you'll need to fit within a budget. But limited funding doesn't have to mean your vision won't become reality.

How does this work?

We first started working with a Little League in Madison, WI, in 2001. They were in need of significant improvements to their facility. Working together, we analyzed the areas of concern and divided the project into three categories: playing fields, safety/visual, general facilities. Safety issues and field improvements were at the top of the list. But on a limited budget, we knew we couldn't do everything at once.

Renewed interest, pride

By concentrating on the safety and visual improvements of the fields first, these initial efforts were successful in building renewed interest from the community and a sense of pride in the facility. With improved visual appeal came increased participation and — you guessed it — increased funding. The next year, improvements focused on one field and batting cages. Following improvements to that field, the comparison to the other fields was remarkable. Year three saw the concession stands updated, general facilities like storage buildings and restrooms improved, and continued work on the other fields.

A championship effort

Some intriguing things happened on the way to the new ballpark. Kids had more fun playing in this higher quality environment. League enrollment increased by 50%. Other leagues began scheduling tournaments at the improved facility. And the best part? In 2007, the State 12-year-old Little League Championships were held at the upgraded facility and televised on FOX Sports. In the process, dreams became reality.

Let's get started

Give us a call and get connected with our **Facility Support Group**. With experience on projects from the Major Leagues to the little leagues, the Beacon team will help make sure your vision comes to life.

BARRIER NETTING

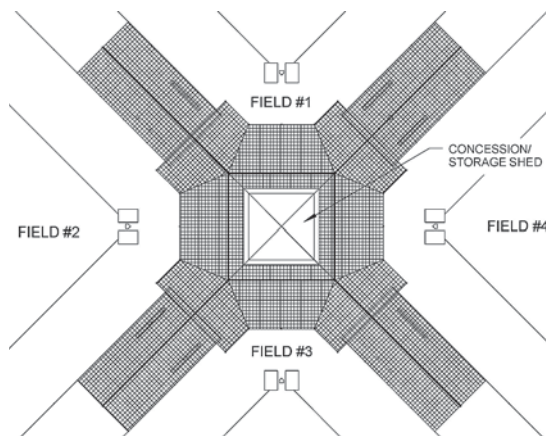

Linear or perimeter systems that can be put up or taken down daily. Beacon's original "top cable tensioning system" easily controls tension from the ground. See page 86 for more netting information. See page 84 for soccer goals and netting.

Customized protection.

From simple sketches, photographs, blueprints or CAD drawings we'll know what questions to ask to guide you through the design process. Our professional design services ensure you'll be getting the best solution for your field.

- **SUPPORT STRUCTURES** We'll help design and fabricate support structures for your nets or we'll help you find a local supplier.
- **NET PANELS** All net panels are made to order in the USA. We can produce panels for any sport, in any size or shape.
- **AESTHETICS** You'll want it to look good, and we make sure it does.
- **LEAVE UP or TAKE DOWN** We specialize in net systems that can be raised and lowered from the ground, but we also can design permanent installations.
- **EXPERIENCE** Our experience and knowledge will save you time and money while ensuring your spectators and players are protected.

Protection
for Multi-Field
Complexes

Tie-back Backstop

Beacon has developed a basic design for a four pole "tie-back" backstop using protective netting in place of chain link fabric that can be adapted to fit most baseball and softball facilities. The benefits include fewer support poles and no poles blocking the view through the backstop; and the cost for such a backstop can be significantly less than the traditional all-steel option.

Our tie-back system has been installed from 20' to 40' high for minor league and college stadiums as well as high school and park & recreation fields. It can even be configured to allow the net to be raised and lowered from the ground for facilities where seasonal net removal and storage is necessary.

Call our Facilities Support staff to discuss your backstop needs.

BEACON NETS:

Custom Design and Proper Material Choice

We design net systems to best fit your application. Our materials include fully UV treated nylon, Dyneema® multifilament poly (MFP), and high tenacity polypropylene — knotted or knotless with mesh construction ranging from 1/2" to 4", and tensile strength up to 720 lbs. Available in black, white, or green. Fire retardant mesh is available for indoor use.

We often recommend finishing panels with vinyl-reinforced hems & borders to add strength and maintain shape. Brass grommets are used to carry and distribute loads evenly. Sewn or hand-tied rope borders are also used in some applications.

From engineering-to drawings-to completion, we'll make sure it's done right and within budget.

wind screens

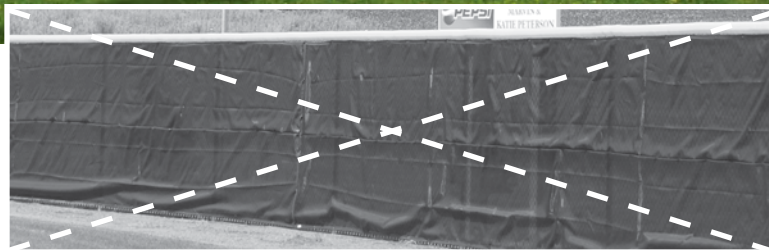

WINDSCREENS & FENCE CAPS

They're like icing on the fence.

Proper sizing is critical. It sounds obvious, but all too often windscreens are installed with a poor fit. These windscreens not only look terrible, they are distracting to players and tougher to work around when maintaining your facility. Following a few standard guidelines will ensure your facility will have a great looking windscreen that is not only aesthetically pleasing, but functionally sound.

WINDSCREEN GENERAL GUIDELINES

- Windscreens must be cut slightly shorter than the actual fence height
- Determine the appropriate material for the conditions
- Remove & roll up your windscreen during the off-season to reduce weathering
- Always consider wind loads — screens placed on fencing dramatically increases the wind load regardless of the percentage of closure
- Discuss your needs with Beacon to ensure a professional looking windscreen that enhances your facility

design-to-fit facility padding

Padding for outside, inside, around the corner, over the rail...

... around the pole, over the doors.

Pretty much where ever you need it. Protective padding is an essential component in providing a safe athletic environment.

Athletes deserve a safe, playable facility. And it's not just direct collisions that are the only concern. Unpredictable ricochets and rebounds from passed balls or foul tips can also create a significant safety threat. Dugout railings, backstops, goalposts, gym walls, light poles and outfield walls are just a few of the things that players can, and undoubtedly will, make contact with at some point.

We will design a complete, custom-made padding system which fits properly, looks great, and above all, provides the necessary protection to ensure safety. *Made in U.S.A.*

CALL FOR DESIGN CONSULTATION AND PRICING ESTIMATES

facility padding

DESIGN-TO-FIT PADDING

Easy to install, easy to remove, easy to store.

All padding is sized to make installation and removal straightforward so off-season storage is easier. Our padding is manufactured to meet your dimensions using a high-density, open-cell foam core with a heavy-duty 18 oz vinyl-laminated cover stock that is fully UV-treated. Wood-backed pads can be screwed directly to walls or hung using aluminum z-clips. Pads can be custom printed with lettering, logos, or digital art (camera-ready artwork required). **Call for pricing. Made in USA.**

Padding can be secured to walls or fences using grommet strips and Velcro® closures. Wood-backed pads can be hung using "z" clips.

DESIGN-TO-FIT PADDING COLOR OPTIONS (actual colors may vary)

BACKSTOP PADDING

A Standard Backstop Padding

18 oz, 2" thick foam. Each panel is made of 2' folding sections. Brass grommets 12" apart on all sides. Call for custom sizes, shapes and fashioning systems. **Color options are the same as "Design-to-Fit Padding" shown above.**

Batting cages that have no equal.

A Shown with optional Tension Cuffs

Only heavy-wall galvanized steel will stand up to it all.

And, our heavy-duty nets are tough, too.

OUR FRAMES are designed around 3" OD Schedule 40 galvanized pipe uprights. If you prefer to buy pipe locally to save on shipping costs, just let us know and we can provide the specifications.

OUR NETS are designed in-house at Beacon and made in the USA. They all feature heavy-duty end panels, vinyl reinforced joints, grommeted hanging points in top section (perimeter and center), two large over-flap doorways and fully grommeted bottom edge for staking. An optional lead rope can be sewn into bottom hem. Prefabricated, steel cables support our premium nets and speed up installation.

Beacon Batting Cages ship complete and ready to install. Standard sizes or custom designs, they're simply the best batting cages you can buy.

Beacon frame components are made from large diameter galvanized steel pipe, not the typical thin walled tubing used in other batting cages.

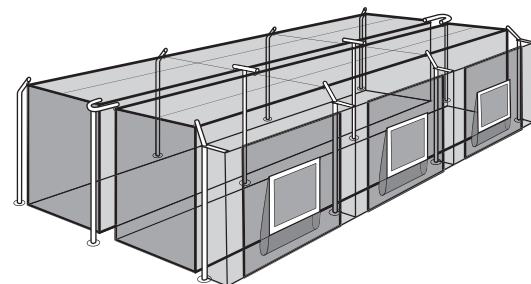

DESIGN-TO-FIT

Contact our Facility Support Group to meet your specific needs. If you need a hitting cage for golf or just have a unique setting, we can design a cage for you.

MULTI-STATION BATTING CAGE SYSTEM

The ultimate in space effectiveness and cost-efficiency. Using the same heavy-duty galvanized steel pipe as our single units, this double-wide batting cage system uses "V-offsets" and "T-offsets" (left) that run between the two parallel cages offering superior support and maximizes your space. Add the optional "soft toss" stations (far right) and you've got an ideal outdoor setup.

FOR FACILITIES

outdoor batting cages

Compatible with chain link enclosures **A**

A Beacon Outdoor Batting Cages

Our outdoor cages include:

- 3" OD Schedule 40 galvanized steel pipe uprights (If you prefer to buy steel pipe locally, we can provide specifications)
- Steel support cables, includes attachment hardware
- Support Net clips
- Premium baseball or softball batting cage net
- Ground cable kit
- Complete installation instructions
- Ground sleeves and caps optional, see below [B]

105-100-140 \$389

C Beacon Batting Cage Tensioning Cuff

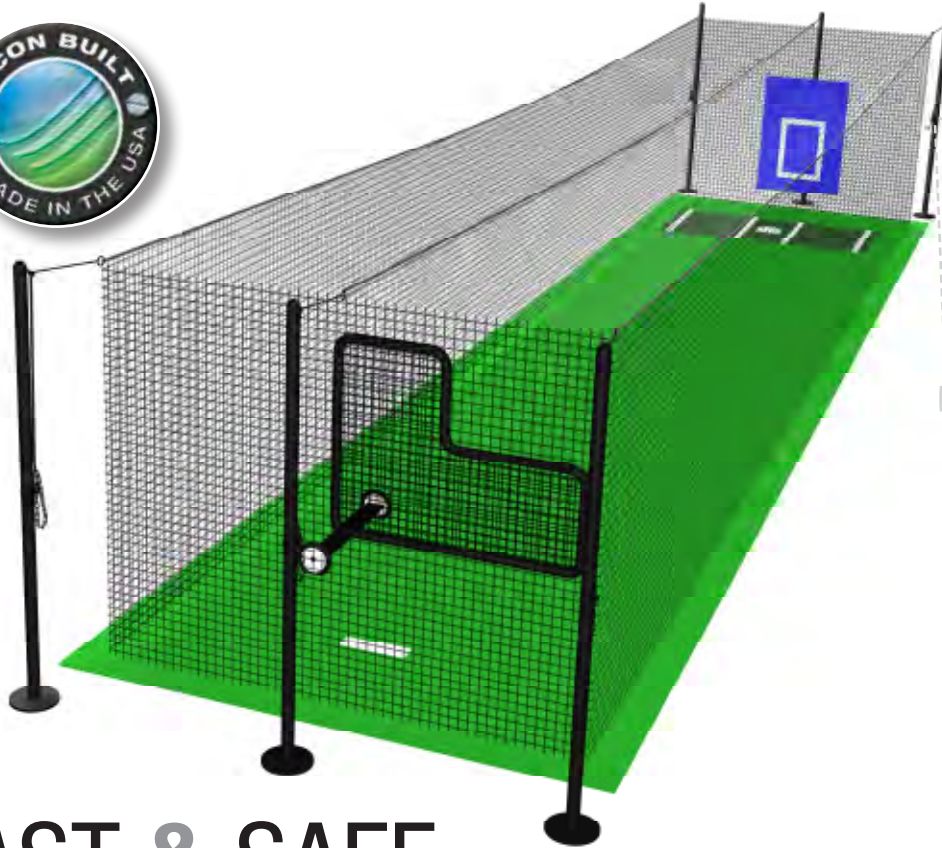

We continue to improve the industry's best Outdoor Batting Cage System. Introducing the "Tensioning Cuff" — a colorful structural support for the cage net corners. They hold the net in place and put slight tension on the side and end panels so the net can better resist the wind. They fit all our single or multiple cage installations and you can add your team name or logo to the cuffs to customize the appearance of your cage. Available in dark green. Other colors available upon request. Custom lettering available.

Set of 4 (single cages).

outdoor tensioned batting cage system

TENSIONING END
Three pole mounted winches.

FAST & SAFE REMOVE DAILY OR SEASONALLY IN JUST MINUTES ...

With **ONLY 3 POSTS** at each end, the **Outdoor Tensioned Batting Cage System** is easy to set up and eliminates ricochet.

FAST! Once the poles are set, it takes two people less than 10 minutes to install or remove the cage net — without ladders. Our premium batting cage net is suspended between the poles while the Tenex top cables are tensioned by our new winch and cable units to minimize sag and maximize hitting and pitching space. Removing the winch handles after the net is tensioned will secure it in the intended position.

SAFE! Support poles are spaced beyond the net end panels, rather than along the cage sides. This eliminates ricochets from hit balls. And no side poles means no more crushing of the net in between a hit ball and the pole — the primary cause of holes in the side panels netting.

Our winches have integral mounts that simply slide over the support pole and lock in place. **Top pulleys and cable units** are pre-assembled and ready to install. **Ground cables** for stabilizing the net against the wind are included. We specify Schedule 40 galvanized steel pipe for support poles that can be ordered from us or sourced from a local fence contractor.

Double or triple cage configurations — with shared support poles — are also available.

Innovative, fast to install, and safe.

gym floor covers

C

C Gym Floor Covers

Gym floors have to hold up to more than sports. Dances, concerts, graduations and other activities lead to heavy foot traffic, stains, scuffs, impact from furniture and more. Our gym floor covers are built to protect your investment with ultra-durable 3-ply fabrics and lay-flat seams engineered to be as strong as the fabric. Custom gym floor cover printing is available.

Call for consultation and price estimates.

270-245-989

D Storage Rack

Our all-steel Mobile Rack saves time and back strains. Simply roll the rack out of storage, position it on the floor and lay the sections down, overlapping slightly. They support up to 3600 pounds of fabric and hold 10'-wide sections of almost any length. Available in 6, 8 and 10-roller models.

All racks include:

- 2 hand cranks for easy winding
- 3 fabric clips per roller for secure winding
- Instructions for assembly and operation
- Large 8" diameter wheels for easy rolling

Call for consultation and price estimates.

E Storage Rack Cover

Keep covers and rack clean and dress it up when not in use. The cover also prevents people from leaning and climbing on rack. Custom gym floor storage rack cover printing is available.

Call for consultation and price estimates

F Power Winder

Use the power winder when you're looking to get the job done quicker and easier. Winds up each gym floor cover section.

G

Just 10 minutes.

That's all you'll need to go from storage to hitting.

“These cages are the best I've seen, so we bought a second one. Because we can't leave the cages up during basketball season, the tensioned cords are a lot easier to install than the come-alongs.”

DIRK BAKER, Worcester State College

A

It's that easy. A simple two person job that takes roughly 10 minutes, and you're hitting.

Same with take down. To dismantle the cage, just release the three halyards, let the net drop to the ground and remove the reach poles. The support cables are flexible and part of the net so you can fold it, roll it, or toss it in a laundry bin without kinking or tangling.

Beacon Indoor Tensioned Batting Cage:

- Top quality tensioning hardware for indoor or outdoor use
- Cam lock pulleys for easy net tensioning and adjustment
- Easy setup and take down in 10 minutes
- After take down, nothing left hanging from the ceiling or across the room — no permanent frame or cable structure
- The system can be reconfigured to accommodate unusual rooms and room sizes
- Outdoor applications make quick setup and removal possible
- Golf section with custom netting on either or both ends is optional
- Cage dimensions can be altered as desired

A Beacon Indoor Tensioned Batting Cage

Our indoor cages include:

- Beacon premium baseball or softball batting cage net
- Low-stretch tensioning cables
- 3 complete cam lock pulley systems
- 3 reach poles
- Installation instructions

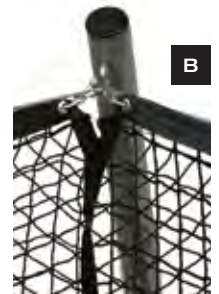

Tensioned BASEBALL Cage
70'L x 14'W x 14'H net. 140 lbs
105-100-070 \$2,295

Tensioned SOFTBALL Cage
55'L x 14'W x 14'H net. 115 lbs
105-100-050 \$1,995

BEACON NETS: Custom Design and Proper Material Choice

We design net systems to best fit your application. Our materials include fully UV treated nylon, multifilament poly (MFP), and high tenacity polypropylene. Knotted or knotless with mesh construction ranging from 1/2" to 4", and tensile strength between 90 and 720 lbs. Available in black, white, or green. Fire retardant mesh is available for indoor use. We recommend finishing panels with vinyl-reinforced hems & borders to add strength and maintain shape. Brass grommets are used to carry and distribute loads evenly. From engineering to drawings to completion, we'll make sure it's done right *and* within budget.

B

B Beacon Premium Batting Cage Nets

Our nets are designed in-house at Beacon & made in the USA. They all feature heavy-duty end panels, vinyl reinforced joints, grommets hanging points in top section (perimeter and center), two large over-flap doorways and fully grommets bottom edge for staking.

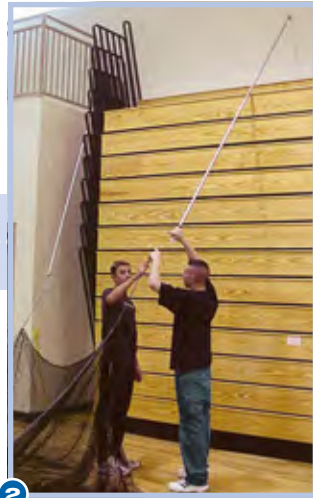

- Fully UV-treated materials
- 1-7/8" square mesh, standard for baseball and softball
- 180 lb break-strength sides & top panels, 320 lb end panels
- Reinforced vinyl hems with grommets every 24"
- Optional lead rope can be sewn into bottom hems

Premium BASEBALL net,
70'L x 14'W x 12'H. 110 lbs
105-630-020 \$1,345

Premium SOFTBALL net,
55'L x 14'W x 12'H. 95 lbs
105-630-410 \$1,095

indoor tensioned batting cages

Sets up in 4 easy steps

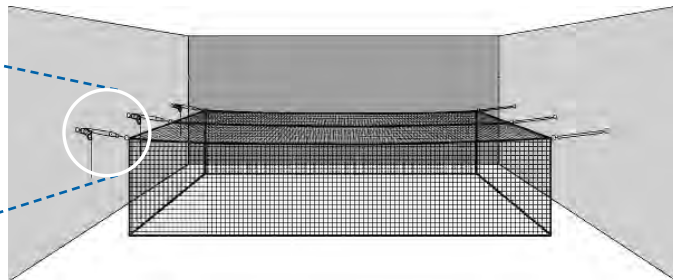

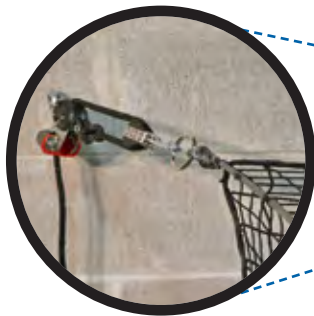

1. Lay out the net
2. Connect the reach poles
3. Hoist up & lock halyards
4. **Start hitting!**

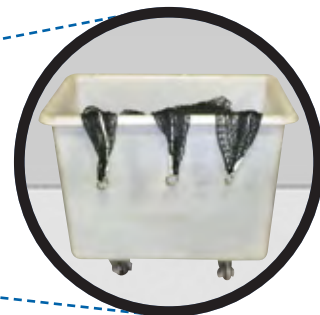

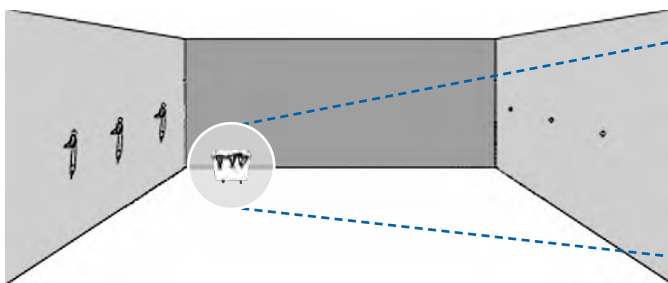

Watch the **Setup Video** on the web at BeaconAthletics.com/cagesetup

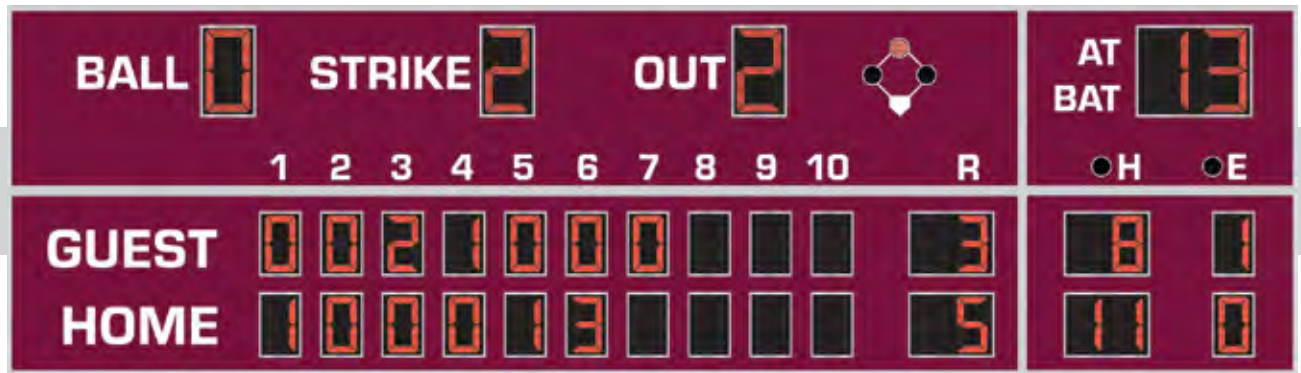

It's simple to adjust, and leaves almost nothing behind.

Superior tensioning hardware and cam lock pulleys mean you can set up & adjust easily. When you take down the batting cage that's all that's left — just the hardware — nothing is left hanging across the room or from the ceiling. Even better, **the entire batting cage really gets out of the way** by fitting easily into a standard laundry bin.

advanced scoreboards

A LED Baseball Inning Scoreboard

A full box score for a big league look. Full-feature, electronic LED baseball scoreboard has it all. Individual inning results, totals for runs, hits and errors plus balls and strikes, outs and batter's number. Available in many colors with multiple options. Call for architects specifications.

8'H x 28'W. 1,200 lbs
150-120-149 \$14,999

B Hit & Error Electronic Scoreboard

LED baseball-softball scoreboard is easy to read and adds "hits" and "errors" for your fans' enjoyment. 18" digits. Available in many background colors. For optional control system, see [G] Wireless Radio Control System.

6'H x 8'W x 4"D. 335 lbs
150-120-139 \$2,999

C Scoreboard with Pitch Count

Little League Baseball now requires the management of pitching staffs by pitch count. Combine our most popular LED scoreboard for youth leagues and add the pitch count at the top and this scoreboard is a must for Little Leagues. An integrated pitch count board makes pitch counts easy to tally and very visible. Pitch count digits are 10" high, score digits are 14" high. Available in many background colors.

5'4" H x 5' W x 4" D. 190 lbs
150-120-169 \$2,899

D Pitch Count Board

Little League Baseball now requires the management of pitching staffs by pitch count. This individual LED Pitch Count board can be mounted to any existing scoreboard. Pitch Count Board has it's own controller that **will not interfere** with scoreboard controllers from other scoreboard manufacturers. Digits are 10" high. Available in many background colors.

1'8"H x 5'W x 4"D. 67 lbs
150-120-159 \$2,099

LITTLE LEAGUE BASEBALL 2010 Pitching Regulations

Pitchers in all divisions have specific pitch count limits for each game based on their age.

The number of pitches delivered in a game also determines the amount of rest the player must have before pitching again.

Scoreboard with Pitch Count [C] and Pitch Count Board [D] will help you manage your player's pitch count.

basic scoreboards

E Standard Electronic Scoreboard

This LED baseball-softball scoreboard is easy to read and has the information required by most leagues at an affordable price. 14" digits. For optional control system, see [G] Wireless Radio Control System. Available in many colors.

3' 8"H x 5'W x 4"D. 120 lbs
150-120-129 \$2,195

F Portable Outdoor Scoreboards

Durable impact-resistant scoreboard equipped with compact hand-held wireless remote control that has an operating range of 150'. Rechargeable 9.6 V battery lasts 25 hours on one charge (recharging base included). A name can be added to the panel. 7-3/4" high-contrast yellow digits. 115 decibel rated horn. Measures 33"H X 38"W x 2"D. Carrying case option available.

BASEBALL-SOFTBALL. 28 lbs
150-120-109 \$1,999

SOCCER-FOOTBALL. 28 lbs
150-120-119 \$1,999

G Wireless Radio Control System

Works with all microprocessor-controlled scoreboards listed on this page. Transmitter and antenna enclosed within control keypad console. Outdoor Range of 1,500'. 74-channel options for running multiple events in close proximity. Powered by rechargeable battery.

8 lbs
150-120-179 \$599

H Porta-Score

Economical scoreboard with white enameled steel board. Two 10" team (Home / Visitors) magnets, 50 4" x 5" magnetic numbers. Green canvas storage bag holds magnetic numbers and two piece scoreboard panel.

Scoreboard 70"L x 18"H, stores to 35"L x 18"H. 25 lbs
150-100-160 \$199

foul poles

A Beacon Economy Foul Pole Kit

Turn a regular pole into a foul pole with this easy to assemble kit.

The foul pole flags are available in custom lengths and, as an option, can be printed with team name or distance marker. Save on costs related to shipping pre-painted foul poles and simply work with your local contractor to supply standard poles and convert them to foul poles. Fits 3" O.D. poles. No painting needed.

Foul pole kit includes:

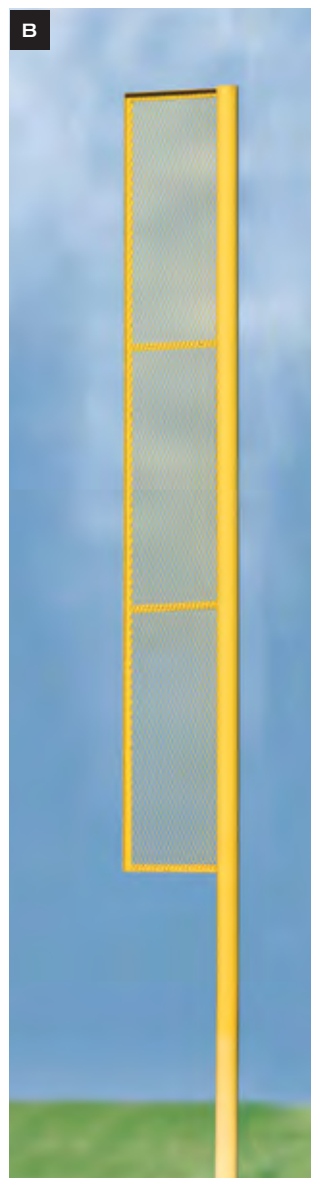

- 4 safety yellow-powder painted brackets
- 2 safety yellow-powder painted pole cap
- 2 yellow 18" W x 12' H flags and necessary hardware kit

Beacon Foul Pole Kit. 26 lbs

** Allow 4-6 weeks for delivery of 8- or 10-row bleachers (2 to 5 rows ship in 24-48 hours)

IMPORTANT ORDERING INFORMATION FOR BLEACHERS

Due to the fluctuation in the aluminum market, prices for aluminum bleachers are subject to change. For up-to-the-day pricing, please call for a price quote. For efficient, economical shipping some assembly will be required on site. Be sure when ordering that the bleachers you are purchasing comply with local building codes. Call for custom bleacher options.

Sun? What sun?

Reduce exposure & increase comfort

BEACON **Shade Structures**

Protect people and property from overexposure.

With Beacon's Shade Structures you'll block up to 95% of the sun's UV rays, and you'll keep metal bleachers cool. From small (10' x 10') to huge (60' x 80') these structures are great for protecting bleacher areas, players' benches, concession stands and playgrounds. And, all are equipped with the easy Turn-N-Slide™ canopy fasten & release system.

Steel components are manufactured with a natural galvanized finish or optional powder-coated finish. Durable shade fabrics meet the most stringent building codes and come in a variety of colors. Structural frames and shade fabrics carry 20-year and 10-year warranties, respectively.

Call for architectural drawings, specifications and pricing. ☎️ 📄

Turn-N-Slide™

It's fast to attach your canopy and easy to release with the Turn-N-Slide™ canopy fasten & release system. A common socket wrench and our supplied Allen wrench is all you need.

Patent Pending

SQUARE & RECTANGULAR SHADE STRUCTURES

A

BEACON BERMUDA
HOME PLATE HALO SHOWN

Reduce maintenance with **Artificial Turf**

Save those **high-traffic areas**

It looks great & makes things easier.

New **BEACON TURF** will reduce your field maintenance costs around these high traffic areas and keep your fields looking great.

Beacon Bermuda is designed to blend with closely mowed southern grasses like bermuda. This turf is manufactured with Polypropylene Monofilament trimmed to a length of 1/2", and backed with a 5mm cushioning foam.

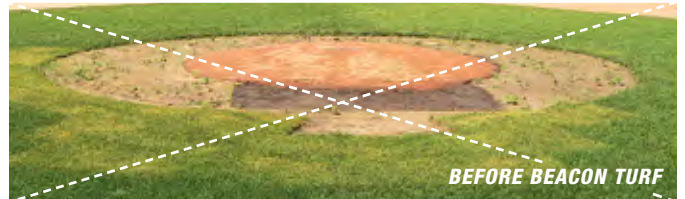

Beacon Bluegrass is designed to blend into northern grasses like bluegrass. The Polyethylene Monofilament has a 2-1/4" pile height leaving plenty of room for the infill rubber granules that provide cushioning.

Installation is easy using either sod staples for securing to soil base or an adhesive for securing to a concrete or asphalt base. Within just a few weeks your natural grass will grow to the edges of the Beacon Turf leaving a low-maintenance, natural look and a safe, consistent playing surface.

B

BEACON BLUEGRASS FULL HALO SHOWN

BEFORE BEACON TURF

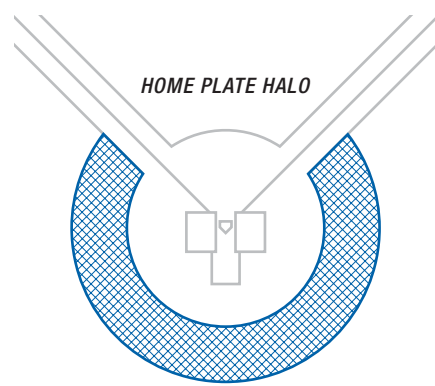

A Beacon Turf Home Plate Halo

Protect the high-traffic home plate area. Contact Beacon with your home plate dimensions for a perfect fit – typical width is 6 feet. Choose between *Baseline Halo* (extending up the baselines) and *Home Plate Halo* (semicircle around home plate only). Available in Beacon Bermuda or Beacon Bluegrass. **Call for pricing.**

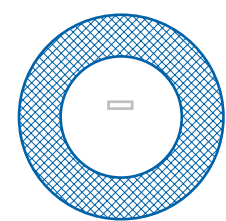

B Beacon Turf Mound Halo

Protect the high-traffic pitching mound area. Contact Beacon with your mound dimensions for a perfect fit – typical width is 6 feet. Choose between *Full Halo* (encircling the mound) and *Half Halo* (semicircle in front of mound only). Available in Beacon Bermuda or Beacon Bluegrass. **Call for pricing.**

PITCHING MOUND HALO

FOR FACILITIES

artificial turf logo

It's not paint ... **SO, NO RUNS, NO DRIPS, NO ERRORS.**

“Now our logo looks great all season. We used to pay more than \$3,000 in paint & labor alone. Installing a **Beacon Turf Logo** took no more effort than what it takes to re-sod any surface area.”

NICOLE SHERRY Head Groundskeeper, Baltimore Orioles (formerly with the Trenton Thunder)

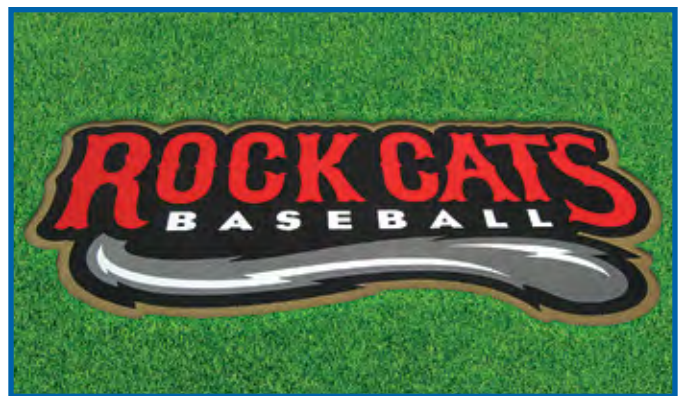

C Beacon Turf Logo

Dress up your field with a colorful artificial turf emblem.

No more paint mixing and extra time out of your busy schedule to paint a logo on grass. The Beacon Turf Logo only requires you to cut away the turf, lay in the Turf Logo and secure with sod staples. For an estimate, just e-mail or fax your team emblem, your color matches, and required size. Allow 6 to 8 weeks for delivery. **Not recommended for use on football fields.**

Hollywood Kwik-Release bases

A

A Hollywood Kwik-Release Base

Disengages from base upon impact, patented design also compresses upon impact. Rubber Base won't absorb water and repels dirt. Easily installs in standard 1½" square ground anchors. Two resistance levels available: YOUTH or VARSITY. 15" x 15" x 2-1/4" thru 2-3/4"

YOUTH RESISTANCE
(dislodges with 19 lbs of pressure):

Single base. 23 lbs
301-675-319 \$115

VARSITY RESISTANCE
(dislodges with 26 lbs of pressure):

Single base. 23 lbs
301-675-329 \$115

(base plugs and ground anchors sold separately)

B Hollywood Kwik-Release Double First Base

Disengages completely with enough force. This double base is durable, water-resistant and made with premium rubber. The white & orange base are molded together as one base. Anchors with a single 1½" anchor which is under the white base.

One double first base. 31 lbs
301-675-359 \$199

(base plug and ground anchor sold separately)

B

Bolco Release bases

C Bolco Magnetic Release Base

This magnetic base complies with Little League Rule 1.06. Different plate sizes to adjust the holding strength of the base to the anchor. Durable rubber base cover. Steel stanchion pan for excellent durability. 15" x 15" x 3".

See double first base [1] on page 40.

Complete single base. Includes base cover, stanchion pan, ground insert, and 3 interchangeable plates to adjust holding strength.

26 lbs

301-105-200 \$189

D Bolco Economy Release Base

Little League Rule 1.06 compliant. Regulation size, modular heavy gauge non-collapsible textured rubber.

Set of three, white release bases. 30 lbs

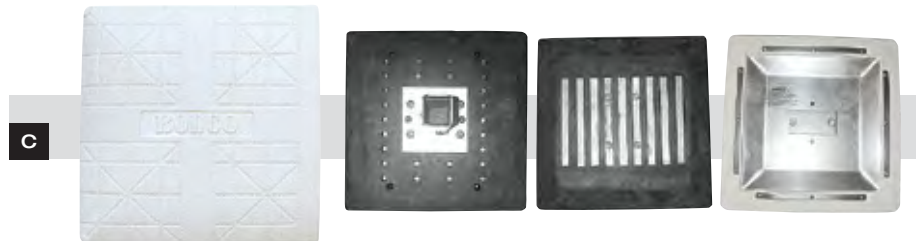

301-105-219 \$269

Single base, orange release single first base.

10 lbs

301-105-309 \$95

(ground anchors sold separately)

C

D

LITTLE LEAGUE BASEBALL RULE 1.06, was implemented in 2008 making it mandatory for all little leagues to use bases that disengage their anchor. Release bases on this page and the 14" bases on page 39 are Rule 1.06 compliant.

WARNING: Be advised that sliding into a base represents a clear and present danger. Injury may occur.

Soft Touch Release bases

A

STAKES

STANCHION TEE

A Soft Touch® Bases, Stake Down or Stanchion Tee

The only completely portable “progressive release” base. Available in two models, original (with stakes) or convertible (with stanchion tee). The original model does not require permanent ground anchors and secures to diamond with three 12” spikes. Or convert your stationary bases to “progressive release” bases without replacing your existing ground anchors. Stanchion tee fits both 1” and 1.5” sleeves. Available in two sizes, 14” or 15” (*Little League approved in 14” only*). Ground anchors for new installations sold separately.

Set of three 14” bases with stakes. 25 lbs
301-693-419 \$379

Set of three 14” bases with stanchion tee. 25 lbs
301-693-409 \$399

Set of three 15” bases with stakes. 25 lbs
301-693-319 \$379

Set of three 15” bases with stanchion tee. 25 lbs
301-693-329 \$399

B Soft Touch® Double First Base w/ Stake Down or Stanchion Tee

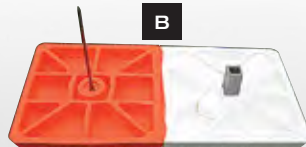

All rubber double first base with spike to stabilize the orange side. Two anchoring options for the white side.

Convertible tee with stanchion. 25 lbs
301-693-399 \$269

Original tee with stakes. 25 lbs
301-693-439 \$269

BASE SET: 1 double first base, 2 single bases with stanchion tee. 50 lbs
301-693-389 \$525

BASE SET: 1 double first base, 2 single bases with original tee w/stakes. 50 lbs
301-693-449 \$525

B

C

DRAG PLUG

GROUND MOUNT ANCHOR

C Soft Touch® Bases w/ Ground Mount System

Designed to flex and absorb energy as players slide into the base. “Progressive Release” base will flex until enough force is applied to “pop” the base free from its mount. Molded 7” stem fits into a ground mount. Sets of 3 available in two sizes, 14” or 15” (*Little League approved in 14” only*). Ground plug (shown) — for use when bases are removed — is sold separately.

Set of three 14” bases with ground mount anchors. 24 lbs
301-693-339 \$369

Set of three 15” bases with ground mount anchors. 24 lbs
301-693-349 \$359

Set of three drag plugs. 2 lbs
301-693-359 \$42

Set of three ground plugs (yellow portion of above photo). 2 lbs
301-693-369 \$69

Set of three ground mounts (white outer portion of above photo). 2 lbs
301-693-429 \$54

D Soft Touch® Double First Base w/ Ground Mount System

All rubber double first base with 7” Soft Touch stem under white side and spike to stabilize the orange side. 18 lbs

301-693-379 \$269

BASE SET: 1 double first base, 2 single bases with ground mounts (all plugs sold separately). 48 lbs
301-693-309 \$525

D

NOTE: The 14” Soft Touch release bases [A] & [B] are Little League Rule 1.06 compliant

Soft Touch Parts also available on the web, www.BeaconAthletics.com

NEW! Rogers Release bases

E

E Rogers Breakaway Base Set

Designed to flex and absorb energy as players slide into the base. This three part base system, comprised of a base top, base plate, and an anchor housing, produces superior performance. Pliable rubber grommets molded to the base plate provide for a snug, secure connection to the base top. Replacement parts available.

SET INCLUDES: 3 designated model base tops (youth, teen, adult, or pro); 3 base plates; 3 anchors; 3 anchor plugs; 3 anchor sleeves; 1 digout tool

CH anchor systems

Save time and money. CH Anchor installation takes minutes and requires **no concrete or digging.**

Ideal for fields with multiple base lengths. Requires no digging or concrete. Saves time & money while installation only takes minutes.

CH anchors will last 5 to 10 times longer than traditional anchors. Standard-duty anchors are economical and made of extremely durable, lightweight galvanized steel. Standard and heavy-duty anchors are easily repositioned with the same driver. Anchors are 16" in overall length.

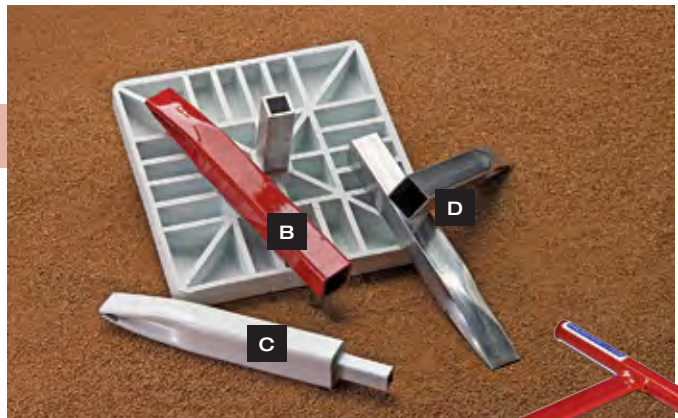

Starter Systems include 3 anchors and a driver. Call for volume price.

TEAMcart

ON-FIELD ORGANIZER

An ideal way to support your field maintenance team.

Everything you need to prepare your field is on the neatly organized and conveniently mobile Beacon Team Cart, making it possible for your crew to quickly get your field in shape.

While one person is cleaning bases, another person can be finish-dragging the infield. A third person can be lining the base paths and still a fourth can be repairing the pitcher's mound and batter's box. The job is finished quickly and your field is ready for play. The Team Cart is sized for easy mobility by either hand or tractor and designed to fit through standard size doorways.

And, you'll also receive six handy field maintenance instruction cards to keep with your cart (*fully-loaded Team Cart System only*) so the whole crew stays literally on the same page with prep, maintenance or repair procedures and techniques.

Push by hand, or ...

... pull by tractor.

Keep your infield maintenance equipment organized, accessible and mobile. Heavy gauge powder-coated steel. At 32" wide and 30" long (with handle fully pivoted inward), this compact cart fits through standard size doorways. Choose between the **Team Cart Basic** with 3 bulk materials storage bins for use with your current equipment, or the **Team Cart System** to take advantage of special savings on equipment with a fully-loaded cart. *Ships via UPS. Call for special pricing on custom equipment / Team Cart combinations.*

SAVE \$50

on your choice of Streamliners when you purchase a Team Cart BASIC.

B Team Cart SYSTEM (fully-loaded)

INCLUDES: 1 Team Cart, 3 bulk materials bins, 1 water jug, 1 set of 6 field maintenance instruction cards, 1- 8" steel handle hand tamp (page 47), 1 steel drag mat 6'W x 3'L (page 71), 1 string winder (page 50), 1 measuring tape, 200' (page 50), 1 long tooth grooming rake (page 48), 1 iron rake (page 48), 1 level board (page 46), 1 square blade shovel (page 49), 1 dig-out tool (page 35), 3 base anchor foam whisker plugs (page 43), 4 tarp stakes (page 75), 1 set of three Jack Corbett bases (*Team Cart System 1 only*, page 40) **and at no additional charge 1 Streamliner 35P dryline marker** (page 53).

Team Cart System 1, with bases. 225 lbs

275-100-040 \$1,569 (\$1,758 value)

Team Cart System 2, without bases. 130 lbs

275-100-050 \$1,399 (\$1,550 value)

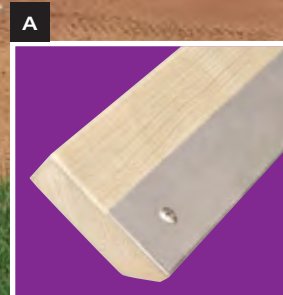

C Field Maintenance Instruction Cards Perfect to keep your staff informed with best infield maintenance practices. This set of six, laminated field maintenance instructional cards is printed in English and Spanish. (Included with Fully-loaded Team Cart System 1 and 2) **500-100-060** \$39

Extra-wide blade for easier leveling

A Beacon Level Board

Extra-wide 54" width makes this an excellent tool for leveling an entire infield or fixing problems around the bases, players' positions, home plate, or pitcher's mound. Stainless steel cutting edge. Heavy-duty aluminum reinforced handle. Intended to be used similar to a grader blade, great for cutting and filling high and low spots.

Beacon Level Board. 7 lbs
220-100-140 \$129

B Cocoa Mop

Excellent on mounds and tight maneuvering areas. Constructed of our high-quality cocoa mat and heavy-duty aluminum reinforced handle.

24"W x 18"D. 12 lbs
220-100-020 \$119

C Drag Broom

A broomed infield finish from a 7"W leveling blade on one side, and 4 1/2" polypropylene bristle broom on the other.

Drag Broom. 15 lbs
220-525-010 \$159

D Double Play Scarifier Broom

An aggressive scarifying edge makes this perfect for breaking up packed soils. Excellent for infield dressing! 28" head.

9 lbs
220-525-230 \$89

E Infield Lip Broom

Ideal for removing loose material from turf edges to reduce lip build-up. Bent handle reduces back strain. 2 rows of replaceable bristles. 60" powder-coated aluminum handle, 28" broom head.

Infield Lip Broom. 8 lbs
220-525-120 \$59

FIELD MAINTENANCE

K

L

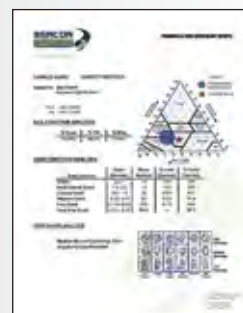

check page 77
for Irrigation Shovels

Get the dirt on your soil. One of the most important aspects of quality turf care is knowing the characteristics of the soil — pH, nutrient content, organic matter content, for example.

The same is true of the skinned areas on baseball and softball fields. In order to effectively maintain or amend your field you must first know what you are working with — otherwise field maintenance becomes a guessing game! Call for more information about soil analysis or to discuss your infield mix. Results may take up to two weeks.

Streamliner 70P

“Without a doubt, its efficiency has reduced our costs and improved the quality of our diamond prep.”

PAUL ROBERTS
Boys & Girls Club Sports
Kenosha, Wisconsin

Perfect for a multi-field complex

The best field chalker in the business

Heavy-duty steel frame and **rugged molded plastic hopper** withstand wear and tear

One-button **retractable handle** for easy on-site storage in storage boxes

Quick change between 2" & 4" lines; **Variable flow control** to better monitor chalk usage

Rigid hopper cover improves durability and access to hopper

Flexible brush agitator helps improve chalk flow for more consistent lines

Watch all of these great **Streamliner** features in action on the web at BeaconAthletics.com/videos

Streamliner 35P **A**

Streamliner 70P **B**

Streamliner 353P **C**

The Streamliner vs. The Competition

QUALITY TEST

Three dryline markers were configured to their optimum setting for producing the best chalk line possible without dropping an excessive amount of chalk. In preparation, each dryline marker was filled with chalk, set to produce a 4-inch line, and used in the "open" position for approximately 50 feet to demonstrate each was loaded correctly. **For the test**, each dryline marker was used in the open position for 30 feet. The results are seen below. **It was clear, the Streamliner 70P** produced the most consistent, solid line of the three dryline markers tested.

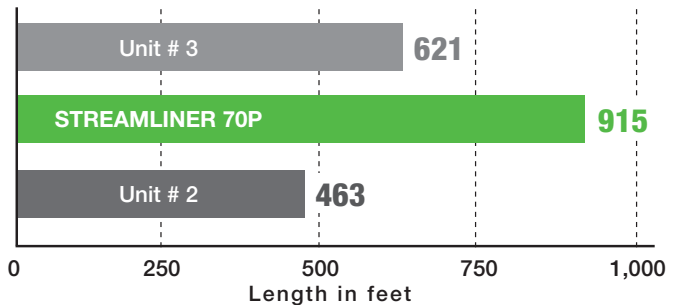

Field Tests conducted 8-8-08, at the W. Madison Little League Field, Madison, WI. For more information or video demonstrations of the Streamliner 70P, Streamliner 353P, or Streamliner 35P visit BeaconAthletics.com.

CAPACITY TEST

Using 50 lbs of chalk, how far will a dryline marker go before running out of chalk? Again, all three dryline markers were configured to their optimum setting for producing the best 4-inch line possible without dropping an excessive amount of chalk. Each dryline marker was filled with 50 lbs of chalk and used until the full 50 lbs of chalk was exhausted. The results are shown below. **Among the three dryline markers, the Streamliner 70P** easily outdistanced the competition by lasting nearly 50% longer than one, and almost double the other.

Which painting method is right for you?

AEROSOL PAINT SYSTEMS

PROS

- Best choice for use by league volunteers for lining fields
- Easy portability of both the sprayer unit and the paint
- Compact spray unit can fit into any vehicle
- No mixing of paint or cleaning of sprayer needed
- Easy changeover from color-to-color in sprayer unit

CONS

- In the long run, aerosol is more expensive than bulk paint
- Time-consuming for painting large logos and end zones
- Some aerosol field paints use propellants that are harmful to turf
- Limited choice of colors available

REGULAR BULK PAINT SPRAYERS

PROS

- Lower cost for paint
- Unlimited choice of colors
- Can vary the concentration of paint per application
- Paints are formulated specifically for turf applications
- Pressurized tanks use zero propellants eliminating the risk for turf damage
- Quicker more efficient way to paint large areas such as end zones and logos

CONS

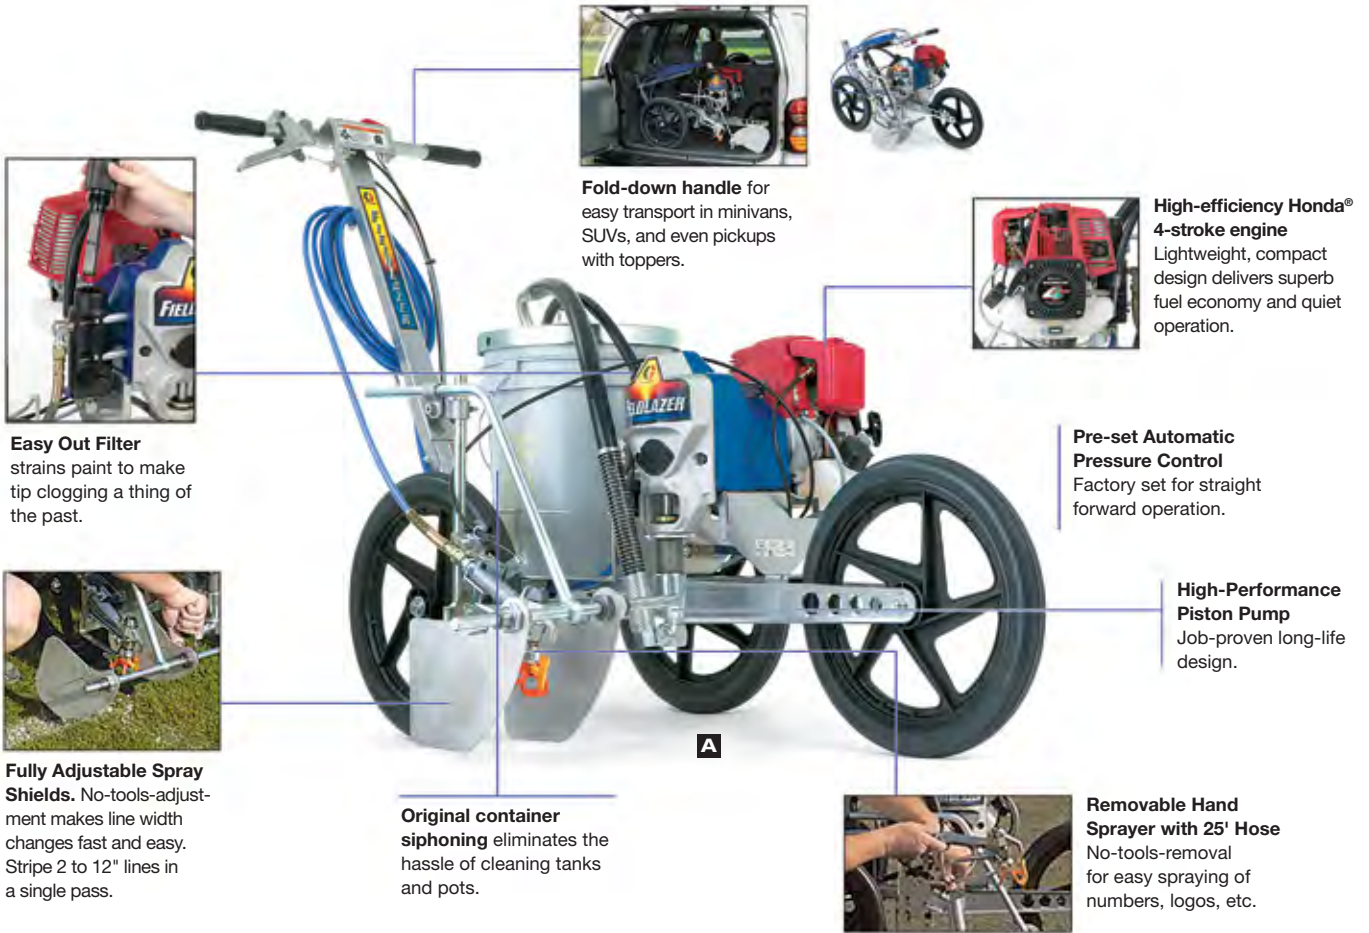

- This system is not meant for weekend volunteers
- Thorough cleaning of the sprayer unit after each use of color is vital
- Not as easily transported from field to field or facility to facility
- Need to have water available for both mixing paint and cleaning

See next page for field sprayers

fieldlazer

the ultimate field striping solution.

Fold-down handle for easy transport in minivans, SUVs, and even pickups with toppers.

High-efficiency Honda® 4-stroke engine
Lightweight, compact design delivers superb fuel economy and quiet operation.

Easy Out Filter strains paint to make tip clogging a thing of the past.

Pre-set Automatic Pressure Control
Factory set for straight forward operation.

High-Performance Piston Pump
Job-proven long-life design.

Fully Adjustable Spray Shields. No-tools-adjustment makes line width changes fast and easy. Stripe 2 to 12" lines in a single pass.

Original container siphoning eliminates the hassle of cleaning tanks and pots.

Removable Hand Sprayer with 25' Hose
No-tools-removal for easy spraying of numbers, logos, etc.

A FieldLazer
FieldLazer is a proven performer that sets a new standard in sports field marking. Airless technology for spraying higher concentrations of paint, delivering brighter, longer-lasting lines. Original container siphoning makes it easy to clean and maintain. Tall wheel cart is lightweight and rolls easily over rough terrain. Designed for easy steering to create circles easily.

KOMBI FIELD STRIPER

D

E

F

D Kombi Battery Operated Field Striper

This striper is easy to use and a superb value. The "knib" attachment adjusts to a variety of line widths to create well-defined lines every time. Heavy-duty rechargeable 8-hour battery. No external mixing — paint and water disperses immediately in the tank. Just flick a switch and clean water is drawn from the rear tank through the nozzle to eliminate pump and nozzle blockages.

70 lbs
215-303-019 \$1,095

E Kombi Spray Wand

Used for spot spraying and filling in areas that are difficult to reach.

7 lbs
215-303-059 \$135

F Kombi Fastline Paint

Supplied in 3 gallon drums. Dilution rates from 2:1 through to 8:1. Rain resistant bright white lines can be applied over poor surface conditions. No mixing, paint disperses easily in water. Reduces maintenance by minimal settlement. Available in White, Red, Orange, Blue, Yellow and Black.

WHITE 50 lbs/pail
215-303-039 \$45
COLOR 50 lbs/pail
215-303-049 \$99

KOMBI PAINT IS STRONGLY RECOMMENDED FOR USE WITH THE KOMBI STRIPER

stripers

Show your stripes.

A CheckMate® Striping Systems

Convert your rotary mower into an artist's brush. Create beautiful mowing patterns. It's an economical way to add the "wow" factor to your field — just update your existing mowers with the CheckMate® Striping System. It's that easy. Pivots with the terrain independent from the mower for maximum grain effect resulting in brighter striping. Solid rubber caster wheels and an easy-to-attach mounting bracket. **Mount on many types of mowers, including:** residential push mowers, commercial walk-behinds, lawn & garden tractors, and zero-turn radius mowers.

Select the striping roller below that is 4-6" narrower than the width of your mowing deck. Each roller comes with mounting hardware for all mower types. Call for additional sizes.

spreaders

SPYKER SPREADERS

Quality from the top down, inside & out.

Spyker Spreaders are designed to withstand the corrosive punishment that comes with the territory.

These versatile spreaders are perfect for applying fertilizers, pesticides, deicers, topdressing materials for turf or infield skin areas, and in some cases, even mulch.

It's about making your job easier and more efficient.

B

C

B Self-Propelled Spreader

For larger athletic field complexes. Features patented split-shaft design for easy calibration and patented AccuWay™ for spread pattern adjustment. Stainless steel frame. Poly hopper with a capacity of 120 lbs. Powerful 1.5 HP, 35cc 4-stroke motor chain engine with centrifugal clutch and gear reduction transmission. Enclosed metal gears. Solid stainless steel 5/8" axle (front & back). Four pneumatic tires — 13" x 5" front, 8" x 2.5" back.

Thunderbird 288 self-propelled spreader. 148 lbs
380-677-059 \$2,695

C Walk-Behind Spreader

For smaller turf areas. Stainless steel frame. Poly hopper with a capacity of 55 lbs, 1.11 cu ft. Enclosed metal gears. Solid stainless steel 5/8" axle. Two pneumatic tires — 11" x 4".

Model 48 walk-behind spreader. 38 lbs
380-677-049 \$389

D Electric Spreader

Mounts to pickup trucks, ATV's, gators and golf carts. Features a one-piece heavy duty 14-gauge stainless steel square tubing frame. High density poly hopper with a capacity of 125 lbs, 2.5 cu ft. Electric, variable speed controller. Various mounting options available.

Put the *magic* back in your field.

Introducing **MAGIC MIX™** infield topdressing & **MAGIC TRACK™** warning track material

“ **Our decision to install Magic Mix at our field is among the best facility-related decisions we’ve ever made. Located in a northern climate, it’s very important to get on the field as much as possible in the fall and spring. Bottom line, we don’t lose games due to weather. In fact, Magic Mix is actually at its best when it’s wet. Our players, coaches and facilities managers love Magic Mix.** ”

— Steve Hauser, Director of Athletics, MATC

A Magic Mix Infield Topdressing

A finely crushed aggregate that has been proven over the years to be a solid performer on ballfields, especially in northern climates. It’s rich red color gives any field a more professional finished look. Magic Mix is fine enough to slide or dive on without worry of player safety. Dense material that won’t wash away or create dust. Just one-quarter to one-half inch coating improves resiliency, slows the evaporation of moisture from your infield skin and speeds reentry onto the field after a rain event — minimizing the use of other drying agents.

40 bags per pallet. 50 lbs per bag
260-345-049 Call for pricing

Available in bulk loads. Refer to table on page 63.

260-345-029 Call for pricing

B Magic Track Warning Track

Produced using the same raw material as the Magic Mix Infield Topdressing, Magic Track Warning Track displays the same qualities and rich red color to ensure a uniform look to your field when they’re used in tandem. Proper gradation of the warning track mix allows the material to pack down just enough to give outfielders better traction.

One ton of Magic Track will cover:
 249 sq ft [1" depth]
 125 sq ft [2" depth]
 83 sq ft [3" depth]

Available in bulk loads only.

soil amendments

Soil amendments, topdressings, and drying agents ship via commercial freight.
Call for prices of products listed here as price depends on quantity ordered and freight charges.

A Diamond Pro® Professional

A professional grade calcined clay which is a cleaner product with a more consistent uniform particle size that will not stick to cleats and is easily incorporated into the infield. For use on the skinned area of baseball and softball fields to improve drainage.

40 bags per pallet. 50 lbs per bag
260-265-100 Call for pricing

E Diamond Pro® Red Infield Conditioner

Has a rich red color and grade specifications that provide an aesthetically pleasing infield while offering a very resilient playing surface. Groundskeepers will find this product allows them to quickly reenter fields after a rain event to prepare them for the next set of games.

40 bags per pallet. 50 lbs per bag
260-265-060 Call for pricing

Also available in 10, 15, and 24 ton bulk load

C Diamond Pro® Drying Agent

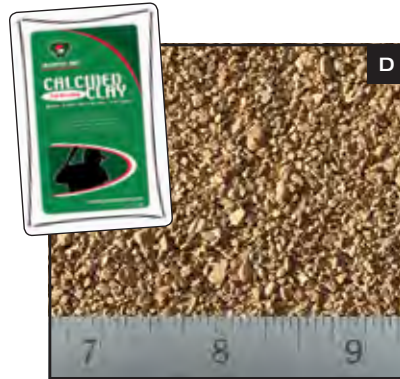

Diamond Pro Drying Agent's very fine sand size gradation assures maximum surface area exposure. This guarantees the most rapid absorption of any moisture on your infield skin.

40 bags per pallet. 50 lbs per bag
260-265-020 Call for pricing

D Diamond Pro® Top Dressing

A calcined clay product used on the skin area of baseball and softball fields to improve drainage. Larger particle size increases its durability.

40 bags per pallet. 50 lbs per bag
260-265-130 Call for pricing

E Turface® MVP

Incorporating Turface MVP calcined clay into high-clay infield soils will help to fractionate the soil, reduce compaction, and provide a more resilient playing surface.

40 bags per pallet. 50 lbs per bag
260-615-280 Call for pricing

Also available in 23 ton bulk load

F Turface® Pro League (standard)

Smaller, more uniform particle size makes it a natural fit as an infield topdressing. Provides a more "player-friendly" surface for sliding, diving and fielding.

40 bags per pallet. 50 lbs per bag
260-615-240 Call for pricing

Also available in 23 ton bulk load

G Turface® Pro League (red)

The same uniformly sized calcined clay as the Turface® Pro League but dyed a rich red color for added aesthetic enhancement of your infield.

40 bags per pallet. 50 lbs per bag
260-615-230 Call for pricing

H Turface® Quick Dry

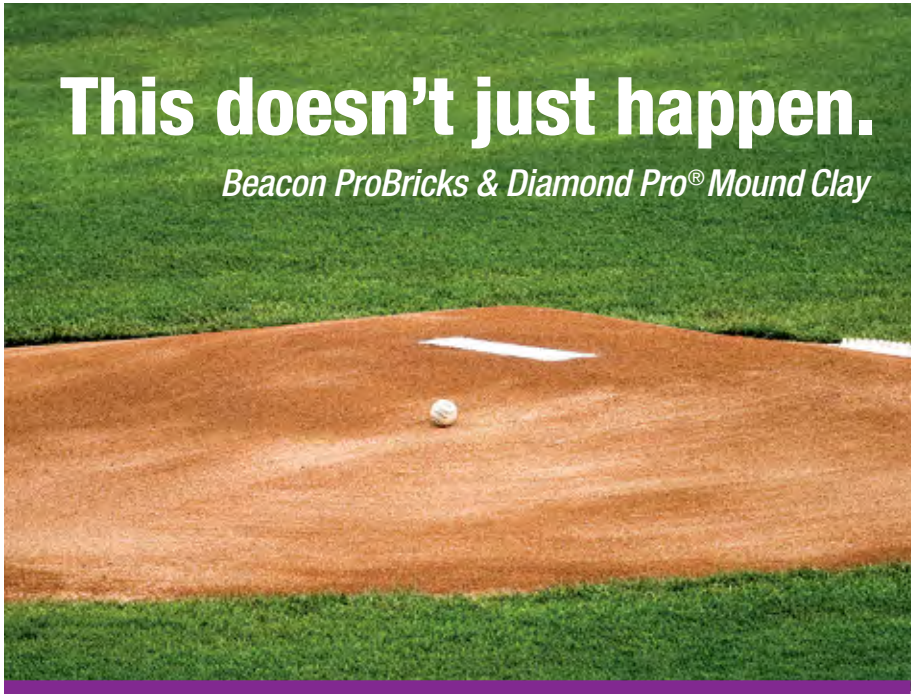

Very fine sand size gradation assures maximum surface area exposure. Guarantees the most rapid absorption of any moisture on your infield skin.

40 bags per pallet. 50 lbs per bag
260-615-270 Call for pricing

All Turface soil amendments also available in red and gray as a custom order. Call for pricing and delivery options.

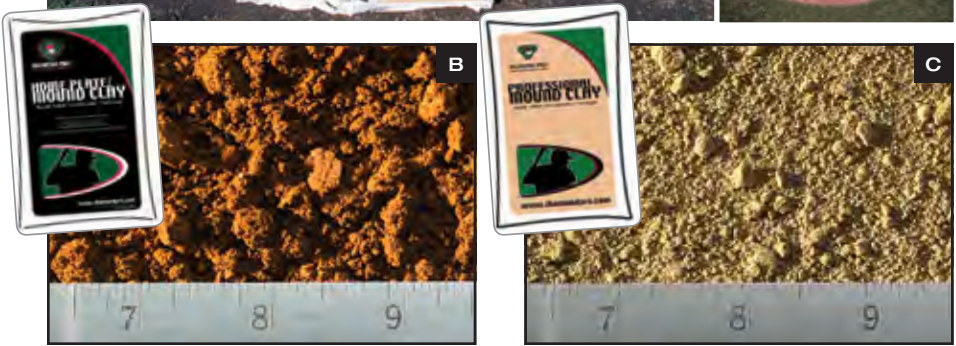

pitching mound **fortification**

This doesn't just happen.

Beacon ProBricks & Diamond Pro® Mound Clay

A Beacon ProBrick

A solid, larger-sized brick which provides maximum protection in the most heavily used areas of your field. We recommend *Diamond Pro® Mound/Home Plate Bagged Clay* for routine brick repair (see below). Shipped by commercial truck. Forklift needed for unloading. Call for freight quote. **Refer to chart on next page for recommended amounts.**

Unfired Beacon ProBricks, 246 per pallet. 1,580 lbs per pallet. 8 1/4"L x 4 1/8"W x 2 1/4"H
250-688-160 Call for pricing

B Diamond Pro® Mound / Home Plate Clay

Quality shredded red clay that's moist and ready to use right out of the bag! When maintained properly, it provides a stable, safe playing surface by reducing the extent of digout in the high wear areas of the mound and home plate areas. Call for information on use and performance. **Refer to chart on next page for recommended amounts.**

Five bag minimum order. 50 lbs per bag. 40 bags per pallet.
250-265-040 Call for pricing

C Diamond Pro® Professional Mound Clay

Highest quality shredded mound clay available. Carefully screened to assure purity of product. This heavy clay has a higher clay content to promote stronger bonding than the standard Diamond Pro Mound/Home Plate Clay. Due to the purity of this clay more careful management and an advanced maintenance program is required. DP Professional Mound Clay is dry in the bag and requires hydration before use. Provides the ultimate footing for ballplayers when maintained properly. Call for information on use and performance. **Refer to chart on next page for recommended amounts.**

Five bag minimum order. 50 lbs per bag. 40 bags per pallet.
250-265-150 Call for pricing

FIELD MAINTENANCE

batter's box fortification

A Beacon Porous Rubber Batter's Box Mats

Safe to use with plastic, rubber or metal spikes. These porous rubber mats are made from shredded recycled tire rubber bound together using a polyurethane binder. Each mat is 40" x 50" x 7/8" thick. Beveled edges on three sides. A set of five mats will cover both batter's boxes and the catcher's box.

Single mat, 45 lbs
250-400-149 \$109

BEST BUY! Buy 5, SAVE \$50!

Set of 5 Beacon Porous Rubber Mats. 325 lbs
250-400-199 \$495

Besides the batter's box, an excellent application of the Beacon Porous Rubber Mat is in the coach's box.

web tip

Bricks vs. Bagged Clay

beaconathletics.com/field-tips

MOUND, BATTER'S BOXES & CATCHER'S BOX REQUIREMENTS

For plastic spikes a 2" to 3" deep clay layer is sufficient for mound fortification.
For metal spikes a 4" deep clay layer is recommended in the front slope for proper fortification.

PITCHER'S MOUND

	Beacon ProBricks *		Shredded Clay	
	2-1/4" DEPTH	4" DEPTH †	3" DEPTH	4" DEPTH
PROFESSIONAL / COLLEGE / H.S. mound	230 bricks	370 bricks	41 bags	51 bags
LITTLE LEAGUE mound	100 bricks	-	18 bags	-

† Only the front slope of the mound area requires 4" depth of clay.

BATTER'S & CATCHER'S BOX

	Beacon ProBricks *		Shredded Clay	
	2-1/4" DEPTH	4" DEPTH	3" DEPTH	4" DEPTH
BASEBALL batter's box	100 bricks	186 bricks	18 bags / box	24 bags / box
SOFTBALL batter's box	89 bricks	162 bricks	16 bags / box	21 bags / box
LITTLE LEAGUE batter's box	76 bricks	-	14 bags / box	-
Catcher's box	61 bricks	113 bricks	11 bags	14 bags

* Each Beacon ProBrick measures approximately 8-1/4"L x 4-1/8"W x 2-1/4"H depending upon moisture content; sold 250 bricks per pallet. All quantities are approximate.

home plate · bases · mound **fortification**

EASY 3-STEP JOX BOX® INSTALLATION

1

Dig out a 3½" deep pit around home plate, level it out, and drop in the Jox Box.

2

Drop in the second piece and stamp areas around Jox Box (Deluxe shown).

3

Cover up Jox Box with ½" of top dressing ... **Play Ball!**

The Jox Box®

The best alternative for use on high-use, low-maintenance fields. Designed to last for several years without showing significant wear, if maintained properly. Allows players to dig in for solid comfortable footing without creating dug-in holes. Constructed of a 2" thick porous crumb rubber base topped off with a 3/4" long artificial turf cover. Approved by ASA and USSSA for league and tournament play. **Easy 3 step installation.**

Use of the Jox Box at higher levels of play or with metal spikes may reduce their life expectancy.

JOX BOX AFTER TOP DRESSING

A Original Jox Box®

Install in batters boxes on both sides of home plate.

Set of two 4'W x 8'L mats. 385 lbs per pair

250-400-119 \$829 per pair

B Deluxe Jox Box®

Finished to perfection.

A Beacon Cocoa Mat Drag

Recommended for finished fields with a topdressing layer. Available with or without leveling bar.

Cocoa Mat Drag WITH leveling bar, shown right,
6'W x 4'L. 83 lbs

205-100-060 \$349

Cocoa Mat Drag WITHOUT leveling bar, shown below,
6'W x 4'L. 64 lbs

205-100-050 \$269

A

QUICK DRAGS

B Beacon Cocoa Mat Drags

Natural fiber cocoa mats have been grooming infield skins for decades. They virtually float across infield surfaces to provide a highly professional finish without displacing much of the soil or topdressing materials. They are also valuable for dragging topdressing into turf.

6'x2' hand drag has a rope handle and is great for between inning manicuring. The 4'x2' hand drag has a rope handle and is good for smoothing baselines, cutouts, infield edges, mounds, and home plate. Both sizes are equipped with a steel lead bar.

4'W x 2'L. 25 lbs

205-100-020 \$149

6'W x 2'L. 36 lbs

205-100-030 \$189

QUICK DRAG SPECIAL

BUY 5 & SAVE \$50! Five drags, 6'W x 2'L.

205-100-040 \$895

C Beacon Rigid Steel Mat Drag

This rigid steel drag mat is increasingly popular with groundskeepers. This mat is built for rapid grooming of an infield skin such as between inning grooming but can also be utilized in the day to day maintenance. The rigidity of the drag helps to cut down high spots and fill low spots. Can be pulled by hand, infield tractor or grooming machine. Some assembly required.

4'W x 18"L. 34 lbs

205-435-010 \$99

6'W x 18"L. 45 lbs

205-435-320 \$135

QUICK DRAG SPECIAL

BUY 5 & SAVE \$50! Five drags, 6'W x 18"L.

205-435-330 \$625

B

C

field drags

D WITH Leveling Bar

WITHOUT Leveling Bar

D Beacon Steel Mat Drags

Constructed of 3/8" thick galvanized steel ribbon, creating a 1" mesh mat. Each mat has a bar riveted to the lead edge for stiffness & strength. Pull rope included for use as a hand drag. Custom-size steel drag mats available. Call for pricing.

WITH Leveling Bars

Infield Skin Topdressing:
How much do you need?

beaconathletics.com/field-tips

infield tarps & tarp tubes

A second skin for your infield skin.

You'll have it covered.

This 2-piece tarp is an extremely useful tool in the art of infield skin moisture management. These infield skin tarps are custom-made to fit your exact infield dimensions.

A Beacon Infield Skin Tarp

Light enough for four people to quickly put in or remove.

Grommets are located around all edges of the tarp for anchoring. Convenient handles are provided along the front and back edges. Constructed of 6 oz silver/white woven polyethylene or a heavy-duty vinyl coated polyester.

Prices based on regulation field sizes — actual pricing based on your field dimensions.

REGULATION baseball, 6 oz woven polyethylene.

270-245-089 \$349

C

full infield tarps

Made better. Made in the USA.

All of our Full-Infield Tarps are made in the USA to our specifications. This allows us to control the manufacturing process and product quality. Our handles are stitched into the edge hem and finished with spurred, rolled rim grommets to provide the strongest possible fastening. You may find lower-priced field tarps, but you won't likely find a better tarp value. Hems, grommets and handles are on all four sides. Tarps stakes are included. 3-year manufacturer's warranty on all Full Infield Tarps.

Please allow 3-6 weeks lead time on all full field tarps. Be sure to measure your fields to insure a proper fit of your Full Infield Tarp. Custom sizes and printing available.

irrigation

A Two-Piece Winged Quick Coupler Valve

Patented wings stabilize valve to prevent it from rotating underground. Handles pressures up to 150 psi and flow ranges from 5 to 100 gpm. Single-slot quick coupler valve. Available in 1" only.

● 1" winged coupler valve. 4 lbs
225-195-170 \$99

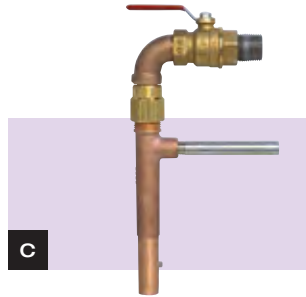

B Two-Piece Quick Coupler Valve

Handles pressures up to 150 psi and flow ranges from 5 to 100 gpm. Available in 3/4", 1" and 1-1/4".

● 3/4" coupler valve. 2 lbs
225-195-130 \$52

● 1" coupler valve. 3 lbs
225-195-110 \$79

● 1-1/4" coupler valve. 4 lbs
225-195-120 \$85

C Deluxe Quick Coupler Key

Ball valve eliminates pressurized back spray when removing a key from a quick coupler valve. Assembly includes key, brass swivel and ball valve. 3/4" hose will fit the 3/4" key. 1" hose will fit the 1" or 1-1/4" coupler keys.

● 3/4" deluxe coupler key. 4 lbs
225-195-200 \$75

● 1" deluxe coupler key. 5 lbs
225-195-180 \$119

● 1-1/4" deluxe coupler key. 6 lbs
225-100-190 \$139

D Quick Coupler Key

Use to activate a quick coupler valve. Attach a hose or impact sprinklers to top of key. Available in 3/4", 1" or 1-1/4".

● 3/4" coupler key. 1 lb
225-195-160 \$32

● 1" coupler key. 2 lbs
225-195-140 \$59

● 1-1/4" coupler key. 3 lbs
225-195-150 \$75

E Swing Joint

Excellent for use under sprinkler heads and quick coupler valves. Facilitates easy adjustment of height & angle of quick coupler and automatic irrigation heads. Joint flexibility helps protect against lateral and mainline damage from overhead compression by mowers and utility vehicles. O-ring seals provide leak-free joints. Made of Schedule 80 Hi-Impact PVC Type II material. Available in 3/4", 1" and 1-1/4".

● 3/4" swing joint. 1 lb
225-410-560 \$19

● 1" swing joint. 1 lb
225-410-540 \$25

● 1-1/4" swing joint. 1 lb
225-410-550 \$29

F Heavy-Duty Brass Swivel

Solid brass construction. Available in 3/4", 1" and 1-1/4".

● 3/4" brass swivel. 1 lb
225-195-060 \$39

● 1" brass swivel. 2 lbs
225-195-040 \$49

● 1-1/4" brass swivel. 3 lbs
225-195-050 \$55

G Hose Quick Connect

Connect hoses with ease using this fast connection. Made of heavy duty brass. Includes male and female ends.

● 1" quick connect. 2 lbs
225-725-430 \$45

H Toolite Irrigation Shovels

Excellent for wet, muddy digging, such as irrigation leaks. Holes greatly reduce mud sticking to the shovel. Fiberglass cushioned handle and tempered round blade.

SHORT-HANDLE. 5 lbs
220-525-020 \$59

LONG-HANDLE. 5 lbs
220-525-050 \$59

water, air & electrical reels

REELCRAFT

E Reelcraft® Self-Retracting Compressed Air or Water Hose

Series RT is a lighter, spring-driven hose reel for applications that are less demanding, yet require a product that can withstand industrial use. Air/Water Hose included.

● 50' of 1/4" 300 psi hose. 25 lbs
225-645-189 \$155

● 50' of 3/8" 300 psi hose. 30 lbs
225-645-069 \$185

● 35' of 1/2" 300 psi hose. 30 lbs
225-645-209 \$195

F Reelcraft® Premium Duty Spring Retractable Reel

Durable and compact, these reels offer full flow shaft and swivel to assure maximum air or water delivery. Air/Water Hose Included.

● 25' of 3/8" 300 psi hose. 22 lbs
225-645-079 \$175

● 50' of 3/8" 300 psi hose. 36 lbs
225-645-129 \$255

● 50' of 1/2" 300 psi hose. 44 lbs
225-645-139 \$285

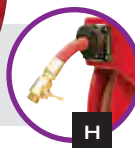

G Reelcraft® Heavy Duty Industrial Spring Retractable Reels

Series 7000 incorporates all steel construction and baked-on powder coat finish to produce a rugged corrosion resistant product suitable for a wide variety of heavy-duty application. Hose included.

● 70' of 3/8" 300 psi hose, 50 lbs
225-645-169 \$345

● 50' of 1/2" 300 psi hose, 51 lbs
225-645-179 \$345

H Reelcraft® Heavy Duty Industrial Spring Retractable Reel with Supply Line Ball Valve

Same construction and functions as [G] above, with supply line ball valve.

● 25' of 3/4" 250 psi hose, 10' of 3/4" supply line and ball valve. 53 lbs
225-645-089 \$425

● 35' of 5/8" 250 psi hose, 10' of 5/8" supply line and ball valve. 53 lbs
225-645-099 \$425

I Reelcraft® Spring Retractable Power & Light Cord Reel

Retractable electrical cords improve workplace safety by keeping long electrical cords up and out of harm's way. Easily mounted on a wall or overhead. Cord and light included.

16' AWG, 50' cord with fluorescent light and receptacle. 15 lbs

225-645-509 \$155

J **NEW!** Reelcraft® Retractable Electrical Cord Reel

Power and light cords improve workspace safety and efficiency. Easily mounted on a wall or overhead. Cord included.

14 AWG, 50' cord with triple outlet, 15 lbs
225-645-109 \$135 (not pictured)

12 AWG, 45' cord with single receptacle, 28 lbs
225-645-119 \$315

nozzles & hoses

A Beacon Pro Shot Hose Nozzle
Perfect for professional grounds keepers.
 Precision machined with a 1" aluminum hose nozzle that provides incredibly smooth operation. Features a "flush" setting to clear small particles that can become lodged in the nozzle adversely affecting performance. Nozzle settings from a straight stream to a very fine fog in various GPM capacities. Full five-year warranty.
 ● 1" NPSH treads.
225-385-420 \$249

HEAVY DUTY NOZZLES
 Choose from our precision model to our economy plastic hose nozzle. Whether it's for 1" or 1-1/2" hoses, we have a nozzle for you.

B Dual Gallonage 1"
 1" Nozzle, 10-30 GPM adjustable stream to fog.
 ● Nozzle for 1" hose. 1 lb
225-682-050 \$85

C Dual Gallonage 1-1/2"
 1 1/2" Nozzle, 20-60 GPM adjustable stream to fog.
 ● Nozzle for 1-1/2" hose. 1 lb
225-682-070 \$129

D Constant Flow Nozzle
 1" Nozzle, 30 GPM adjustable stream-to-fog.
 ● Nozzle for 1" hose. 1 lb
225-682-060 \$85

E Economy Plastic Field Hose Nozzle
 Corrosion-resistant thermo-plastic nozzle. 22 GPM flow at 100 psi.
 ● 1" Fitting. 1 lb **225-740-210 \$19**
 ● 3/4" Fitting. 1 lb **225-740-220 \$19**

HOSE - NOZZLE SIZING KEY: ● = 3/4" ● = 1" ● = 1-1/2"

barrier netting

Simple yet attractive.

Our barrier net systems are designed for easy removal and deployment from ground level — **no ladders or lifts** required after the initial installation.

Superior quality hoisting blocks and halyards lift the net into place, while the top support cable and our innovative tensioning system easily removes sag.

Just as with our Outdoor Batting Cages, our Barrier Net Systems are available with or without galvanized steel uprights. To fit your space perfectly, contact us for customized netting system configurations. Ground sleeves, plugs, and aluminum uprights are available upon request.

WITH UPRIGHTS 4" OD Sch. 40 galvanized steel

140-100-300 \$1,385

SAVE MONEY by sourcing uprights from a local fence contractor! We'll provide the specifications so you'll get exactly what you need.

PLEASE NOTE: Due to the ability to lower these nets quickly and easily, these barrier net systems are rated to a maximum wind speed of 80 mph for the Soccer systems and 70 mph for the Multi-Sport systems. We can design systems to meet higher wind load ratings as needed — both hoistable and permanent. Please call us with your requirements. Be sure you know the wind load rating for any barrier net system that you purchase.

“Smart-Hurdles are the most exciting training tools I’ve seen in a long time. Their adjustable height and three points of support is what makes them great. I really recommend them.”

VERN GAMBETTA
President of Gambetta Sports Training Systems

Smart-Hurdle™ COLLECTION

The Collection

It brings them all together.

It's training made easy. With the convenient Smart-Cart they're a breeze to transport and easy to store.

From agility workouts to over/under drills, your training options are virtually unlimited with this versatile set of small, medium, large, and adjustable height Smart-Hurdles. The sturdy three-point base makes setup quick & easy and drills safer. Informative training CD included. *Made in U.S.A.*

The Smart-Hurdle COLLECTION includes
36 total Smart-Hurdles:

- 6" high Smart-Hurdles #1 (12)
- 12" high Smart-Hurdles #2 (12)
- Adjustable Smart-Hurdles #3 adjust to 12", 15" or 18" (6)
- Adjustable Smart-Hurdles #4 adjust to 21", 24", 27", 30", 33" or 36" (6)

Also included with the COLLECTION:

- Smart-Cart transport and storage cart
- Smart-Hurdles training CD

A Smart-Hurdle COLLECTION

Collection of 36 total Smart-Hurdles, Smart-Cart, and Smart-Hurdles training CD.

Smart-Cart™ TRAINING SYSTEM

The complete, portable training system.

FRONT

BACK

B

Perfect for:

- Team Training
- Physical Education
- Rehabilitation
- Fitness Centers

It's all here. With medicine balls, jump ropes, and ... everything you need.

The Smart-Cart organizes your training equipment into a compact and easy to transport system. All of the storage and carrying hassles of traditional equipment are gone. And, with our Smart-Hurdles your training options are virtually unlimited with a versatile set of small, medium, and adjustable height Smart-Hurdles. The sturdy three-point base makes set-up quick & easy and drills safer.

Add to that our original ABC Ladder, medicine balls, core trainers & jump ropes and, using a timed rotational circuit, you'll be able to effectively train as many as 60 athletes in only one hour. Non-marking wheels keep the Smart-Cart gym floor-safe. Informative Training System manual included. (See previous page for additional Smart-Hurdle information.)

The Smart-Cart TRAINING SYSTEM includes **49** pieces of equipment:

- 6" high Smart-Hurdles #1 (12)
- 12" high Smart-Hurdles #2 (12)
- Adjustable Smart-Hurdles #4 (6) — adjust to 21", 24", 27", 30", 33" or 36"
- ABC Training Ladder, 30' (1)
- Medicine balls, 3 kg (4)
- Medicine balls, 4 kg (2)
- Power jump ropes (6)
- Medium-resistance basic core trainers (6)

Also included with the TRAINING SYSTEM:

- Smart-Cart transport and storage cart
- Smart-Cart Training System Manual & DVD
- Smart-Hurdle Training CD

You'll train an entire physical education class of up to 60 kids with a single Smart-Cart

Smart-Hurdle™

SMART TESTS

Each Smart Test Smart-Hurdle upright is clearly marked for fast, precise measuring of bar height.

Better physical education testing.

SMART TESTS are easy to conduct and should become part of your progressive physical evaluation system for physical education classes. And, they're excellent with injury prevention and rehab programs.

The key to getting results is the unique complexity of the tasks presented by the four Smart Tests protocols. Unlike standard sit-and-reach tests, the Smart Test assessments are dynamic, precise, weight-bearing movements — *qualified*, mindful movements.

A Smart-Hurdle SMART TESTS, large

LARGE Smart-Hurdle Smart Tests for conducting progressive evaluation physical tests. Top bar is adjustable from 26" to 42.5". Includes step-by-step instruction guides.

Adjustable height, 42"W. 44 lbs

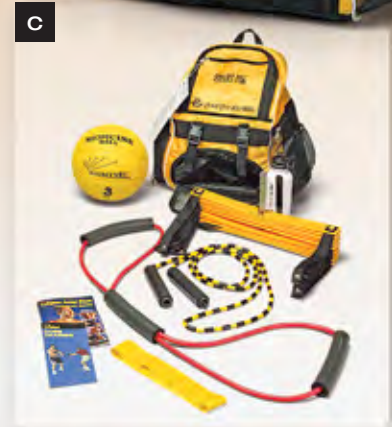

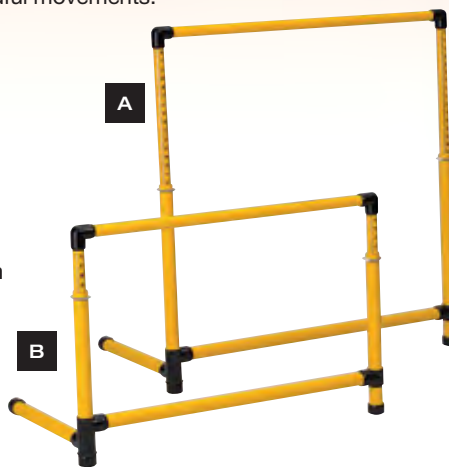

400-100-640 \$89 each

B Smart-Hurdle SMART TESTS, medium

MEDIUM Smart-Hurdle Smart Tests for conducting progressive evaluation physical tests. Top bar is adjustable from 19.5" to 36". Includes step-by-step instruction guides.

Adjustable height, 38"W. 31 lbs

400-100-650 \$79 each

Smart-Hurdle™

SMART-PAK

The Smart-Pak is a complete gym in a portable package. Perfect for the traveling athlete or the home workout. Has all you need for a well-rounded performance training program.

C Smart-Hurdle SMART-PAK

A portable, innovative assortment of training equipment that promotes quickness, agility, stamina and power. By working the body in three plains of motion, athletes optimize range of motion, stability, and strength to help reduce the likelihood of injury.

The Smart-Pak is perfect for sport camps, traveling athletes, pre-game warm-up, post game cool-down, daily conditioning, and injury rehabilitation.

INCLUDES: ABC Ladder, Medicine Ball, Core Trainer, Mini Band Fitness Loop, Power Jump Rope, Heavy-duty Back Pack, and instructional information (Call for other options)

12 lbs

400-100-660 \$160

SAMPLE EQUATION FOR SCORING SMART-TESTS

LEG MEASUREMENT	42"	Leg measurement from floor to top of hip bone (iliac crest)
HURDLE HEIGHT	35"	Successfully cleared hurdle at height of 35"
CALCULATION	$35 \div 42 = 0.83$	Hurdle height divided by leg measurement
RESULT	R = 83%	Result expressed and recorded as a simple percentage

With a pre-injury baseline test result for an individual, Smart-Tests can be helpful in answering the "return-from-injury" questions that frustrate therapists and physicians.

It's simple. You'll learn *more* from the Smart Tests because they *demand* more of the body. Requiring only height and leg length, each Smart Test presents a complex physical puzzle for your body combining balance, dynamic strength, kinesthetic awareness and functional range of motion. Available in two sizes, medium or large.

Agility Training

Quickness, balance, and coordination.

A

B

ABC Ladders are great training tools that give many drill options which are easy to set up and won't clutter your equipment room.

A Original ABC Ladder

Single-row speed/agility ladder. Includes extensive training manual. Breaks down into 4 segments allowing many configurations. Flat rungs enhance safety. Includes storage/carry handle to keep your ladder organized and easy to transport. U.S. Patent #6447427.

30'L, 4 sections. 7 lbs
400-100-070 \$89

15'L, 2 sections. 5 lbs
400-100-040 \$55

B Double ABC Ladder

Double-row training ladder. Improve quickness, agility, balance, coordination and control. Ten 36"W rungs with webbing down the center and each side. Flat rungs improve safety. Includes storage/carry handle to keep your ladder organized and easy to transport.

15'L, 8 lbs
400-100-050 \$99

C Speed/Agility DVD

by Vern Gambetta and Steve Myrland
Footwork drills to improve quickness, speed, body control and awareness. Suitable for all sports to improve footwork and agility. Over 75 different drills for beginners to advanced athletes.

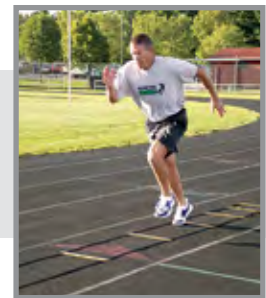

20 minutes. 1 lb
400-310-260 \$29

C

D

D GO! Ladder

This acceleration ladder is 37' L with increasing space between rungs. Rungs are flat for safety and slide onto the convenient storage/carry handle to keep it tangle-free. The two section design is great for coaching the important initial strides for all athletes.

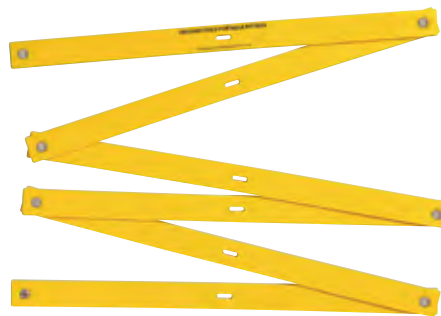

37'L, 5 lbs
400-100-370 \$99

E Crooked Stick Portable Pattern

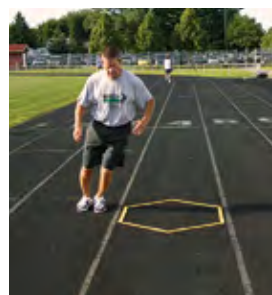

Comprised of six 22" plastic segments, riveted together. Create any basic, straight-sided form — from straight line to hexagon. Segments lie flat for safety. The set includes storage/carry handle to keep your crooked sticks organized and easy to transport.

Set of 4 sections, 44'L. 6 lbs
400-100-330 \$99

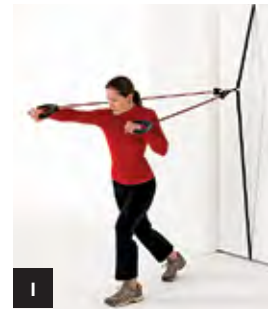

Single crooked stick, 11'L. 2 lbs
400-100-340 \$29

E

functional training accessories

F Lifeline PowrWalk™ Pro

Low impact but great intensity by burning three times the calories over walking. Great for all ages and all fitness levels. Use in stationary location or simply use it on your next walk. Includes 2 – PowrWalk™ pro handles, 2 – 2' silver resistance cables, 2 – 2' gold resistance cables and 2 – foot straps.

2 lbs
400-455-230 \$25

G Medicine Ball

If you could have only one training tool, a medicine ball would be a great choice. Versatile, portable and fun. These durable, bounceable, rubber medicine balls feature a textured grip and come in 2, 3, 4, 5, 6, and 7 kg weights.

2 kg medicine ball. 6 lbs 400-700-440 \$19	5 kg medicine ball. 12 lbs 400-700-470 \$32
3 kg medicine ball. 8 lbs 400-700-450 \$22	6 kg medicine ball. 15 lbs 400-700-480 \$45
4 kg medicine ball. 10 lbs 400-700-460 \$25	7 kg medicine ball. 16 lbs 400-700-490 \$56

H Jungle Gym

Uses your own body weight to work your shoulders, chest, back and more for an incredible workout. The web tubing is placed over a closed door for a secure workout almost anywhere.

Use in combination with the Lifeline Train Station for a dynamic conditioning tool.

Includes 1" webbing with heavy-duty buckles, 2 – handles and 1 – web tube for securing over door.

2 lbs
400-455-210 \$40

I Lifeline Train Station

Fitness center in a bag available in wall or door mounts.

WALL MOUNT

Fantastic for the home or gym permanent installation. 2-way wall buckle gives you multiple resistance points (high to low). Includes 2 – 48" R4 resistance cables, 1 – station web strap, 2 – exchange handles, 1 – cardio belt, 1 – wall mount kit and 1 – "D-ring" (allows use of Jungle Gym).

Wall mount. 2 lbs
400-455-200 \$49

DOOR MOUNT

Train anywhere by turning your door into a home gym. Includes 2 – 30" R4 resistance cables, 1 – station web strap with tension buckle, 2 – exchange handles and 1 – cardio belt.

Door mount. 2 lbs
400-455-220 \$39

J Lifeline Circuit Trainer

Improves first-step quickness, balance and teamwork. Condition and strengthen upper and lower body as well as core. Great for groups of 4 to 14. Includes 1 – 6" circular carabiner, 4 – work stations (10 foot, R2 resistance cables), 4 – cardio belts and 4 – wrist safety straps. 4 lbs

400-455-240 \$149

Extra work stations with various resistance cables are available.

K NEW! Lifeline C-Band

Improves functional strength and balance, working in all three plains of motions. This is a great training tool for individual or group programs. Includes 1 – 10' resistance cable (R2), 4 – foam grips, 1 – door attachment, 1 – waist band and 1 – wrist strap.

1 lb
400-455-180 \$25

L Mini-Band Resistance Loops

A great, lightweight training tool that easily goes anywhere you go. Three levels of resistance: light (yellow), medium (green), heavy (blue). 2"W x 11"L band.

Set of 3, LIGHT resistance bands. 1 lb
400-700-590 \$9

Set of 3, MEDIUM resistance bands. 1 lb
400-700-570 \$9

Set of 3, HEAVY resistance bands. 1 lb
400-700-550 \$12

M Power Jump Rope

Ball bearing action, foam cushioned handles. Weighted and balanced plastic extrusions for maximum speed and control.

9'6"L, adjustable for all heights. 1 lb
400-455-390 \$10

N NEW! Work 2 Rest Circuit Timer

Digital countdown timer that allows the user to program recurring workout cycles. This fully functional software allows you to create the perfect circuit timing sequence. The user defines pre-program countdown period; work period; rest period; and number of cycles. Six different tones can be selected to announce the start of the work phase, mid-point of the work phase, the end of the work phase (start of the rest period). The timer can be easily paused and restarted anytime during the workout. **Compatible with Windows XP or later, and Mac OS X 10.4 or later.**

Download from the Beacon webstore, www.BeaconAthletics.com/training.

400-100-700 \$40

Get it first-hand: experts in the field

Beacon Seminars combine presentation, demonstration, video and general discussion to provide in-depth coverage of the feature topic. Each attendee receives a binder containing prints of presentation slides and other instructional materials.

Past seminar speakers have included distinguished field management professionals: **Paul Zwaska** is a former head groundskeeper for the Baltimore Orioles with over 28 years of groundskeeping experience. He earned a B.S. degree in Soil Science with a specialty in Turf & Grounds Management from the University of Wisconsin. **Steve Wightman** has been involved in sports field management for over 30 years. He managed the field at Denver's Mile High Stadium for 13 years and has spent the last 15 years tending to the field at San Diego's Qualcomm Stadium. **Nicole Sherry** is currently the head groundskeeper for the Baltimore Orioles.

Paul **ZWASKA**

Steve **WIGHTMAN**

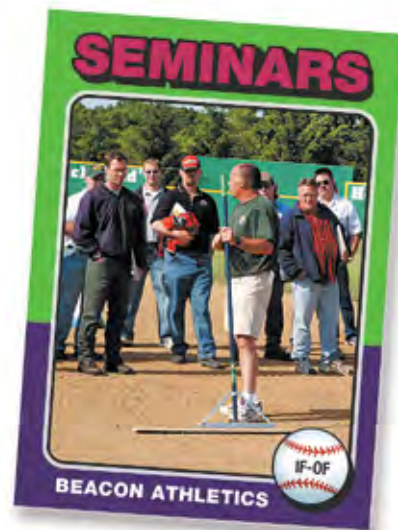

Nicole **SHERRY**

Seminar topics are tailored to timely subjects depending upon the season and the region of the country. Past seminar topics have included:

- Infield Soils and Top-dressings
- Managing Infields
- Mound Molding
- Solutions for Wet Fields
- It's All in the Grade
- Spring Field Preparation
- Fall Field Renovation
- Warm and Cool Season Turf Management
- Netting, Padding and Windscreen Solutions

On-field demonstrations and workshops are included whenever fields are accessible and weather conditions are favorable. Indoor presentations are substituted when weather does not permit outdoor activities.

*Interested in becoming a seminar host site?
Call to discuss scheduling and site requirements.*

RECOMMENDED FIELD MANAGEMENT BOOKS

Visit BeaconAthletics.com for DVDs and Videos

A Sports Fields: A Manual for Design, Construction and Maintenance

by Jim Puhalla, Jeff Krans, and Mike Goatley

Every aspect of planning, design, construction and maintenance of sports fields is covered. Includes hundreds of pictures, illustrations and step-by-step procedures. No other book provides as much detailed information with easy to understand guidance. Unparalleled in quality, practicality and scope.

Hardcover 600 pages. 7 lbs
500-395-130 ~~-\$99~~ **Our Price \$83**

B Baseball and Softball Fields: Design, Construction, Renovation and Maintenance

by Jim Puhalla, Jeff Krans, and Mike Goatley

This book provides field managers the information needed to create and maintain a flawless stadium and playing field. Covers the most common problems and provides real-world techniques for addressing them, as well as turf concerns and considerations in the three major climatic

zones. Contributors include Major League Baseball groundskeepers.

Hardcover 226 pages. 7 lbs
500-395-030 ~~-\$85~~ **Our Price \$68**

C Color Atlas of Turfgrass Diseases

by Toshikazu Tani, Kagawa Japan; James Beard, President, International Sports Turf Institute

Hardcover 245 pages. 7 lbs
500-395-010 ~~-\$125~~ **Our Price \$119**

D Management of Turfgrass Diseases

by J. M. Vargas Jr.

Focuses on prevention and provides specific strategies you can follow to prevent disease from occurring in the first place. You'll learn about cool- and warm-season grasses, growing conditions, new diseases, symptoms, and identification and management techniques.

Hardcover 336 pages. 7 lbs
500-395-100 ~~-\$130~~ **Our Price \$109**

E Fundamentals of Turfgrass Management

by Nick Christians, Iowa State University

Hardcover 301 pages. 7 lbs
500-395-070 ~~-\$80~~ **Our Price \$65**

F The Turf Problem Solver

by A. J. Turgeon & J. M. Vargas Jr.

Have turfgrass problems but not a lot of time? Expert advice on turf problems involving environment (climate, shade, moisture, etc.), cultural (mowing, fertilization, irrigation, rolling.), pest and pesticides (weeds, diseases insects.), and more.

Hardcover 256 pages. 7 lbs
500-395-170 ~~-\$85~~ **Our Price \$72**

G Turf Management in the Transition Zone

by John H. Dunn and Kenneth Diesburg

It helps turfgrass managers in transition areas develop a deeper understanding of: Growth Cycles; turfgrass physiology, nutrition and soil science; mowing and irrigation; climate-specific diseases and insects.

280 pages. 7 lbs
500-395-140 ~~-\$90~~ **Our Price \$82**

H Managing Bermudagrass Turf

by L. B. McCarthy & Grady Miller

If you're determined to create a beautiful bermudagrass turf, let this

be your guide. Step-by-step instructions on cultural practices and critical techniques for controlling weeds, insects, and diseases, and nematodes.

Hardcover 256 pages. 7 lbs
500-395-040 ~~-\$95~~ **Our Price \$82**

I Managing Healthy Sports Fields

by Paul Sachs

An essential book for managers wanting to reduce or cease using chemical fertilizers and pesticides while growing high-quality turfgrass.

244 pages. 7 lbs
500-395-080 ~~-\$70~~ **Our Price \$62**

NRPA and the STMA

ORDERING INFORMATION

Order from our web store with a safe, secure transaction at www.beaconathletics.com or by phone, mail, or fax. Purchase order number is not required. All prices are FOB Middleton, Wisconsin or manufacturer unless otherwise indicated. Current prices apply at time of shipment. We reserve the right to change product specifications with equal or superior quality products. There is no minimum order, but add a \$4 service charge for orders under \$50. **Prices are subject to change without notice.**

BIDS

Bids may be submitted at anytime. Forward your request with the proper paperwork by mail or fax, 608-836-0724. Please allow several days to process your bid request.

CUSTOM ORDERS

Please supply complete specifications for us to process your request. Drawings, color, type of material and measurements should be included. We will be happy to assist in designing a product that will provide the best service and performance. Our engineers review all drawings before approval is given to manufacture. Custom products cannot be returned, except for defects in manufacturing.

Our trained specialists do more than simply take your order. We're here to offer expertise in selecting the best product to meet your needs.

PAYMENT OPTIONS

We accept Visa, Mastercard, and American Express. Accounts with approved credit will be billed Net 30 Days from the date of invoice. A 1.5% finance charge will be assessed for balances past 30 days from date of invoice. Prices in effect at time of shipment, apply to all orders. CODs not accepted.

FREIGHT & SHIPPING

We ship UPS Ground unless expedited shipping is requested. All shipping is paid by the customer. Due to the large size and weight of some products, some items may ship by motor freight. Freight shipments will be prepaid and the actual charges added to your invoice. All prices are FOB Middleton, Wisconsin or FOB shipping dock if shipped from remote location. International shipments can be quoted. Freight shipping is indicated by this truck icon: 

DAMAGE FROM SHIPMENT

If damage occurs during shipment, circumstances must be noted on the bill of lading. **You must notify Beacon Athletics within 5 days of delivery.** It is necessary to report within 5 days so proper damage claims can be made against the carrier. Failure to report any problems within 5 days of delivery will forfeit any claims for damage with Beacon Athletics.

SALES TAX

Add sales tax where applicable.

DISCREPANCIES

Discrepancies must be reported to Beacon Athletics within 30 days of invoice date. Beacon Athletics will not be responsible for any discrepancies thereafter.

PRODUCT RETURNS

To return products, you must obtain advance authorization from Beacon Athletics. **We will not accept returned merchandise without advanced authorization.** A 15% restocking fee and return shipping costs are the responsibility of the customer. Beacon Athletics will not accept returns for products more than 3 months past their invoice date.

CUSTOMER ADVISORY & WARNING

Participation in athletics, recreation, and related activities involves varying degrees of accidental injury risks. Under no circumstances should equipment used for these activities be altered, tampered with or used when damaged. Such equipment should NEVER be used without direct adult supervision and only after examination for damage, wear, proper function, and proper maintenance. The equipment should never be employed for any activity other than that for which it was specifically intended. Participants should always be made strictly aware of the risks involved in the activity they are participating in as well as their own physical limitations and that of the equipment being used.

THE BEACON PERFORMANCE GUARANTEE We hold our products to the highest standards, and your satisfaction is our ultimate goal. If a product does not live up to your standards, we want to know and we'll work with you to resolve any issues.

Beacon Athletics is a division of Rainbow Group, LLC. Credit card charges will appear on statements as Rainbow Group LLC. © 2010 Beacon Athletics. All rights reserved.

DREAM BIG. MAKE IT HAPPEN.
