

TUFF1

BATTING CAGE SYSTEM

This is the biggest, baddest batting cage you can get.

It's the best for size, strength, and durability. With maximum interior space from its 14'W x 14'H design there is plenty of room for hitters, pitchers, and equipment. Tensioned overhead cables support the cage — no side poles or overhead structure to cause ball ricochet. Plus, you can attach up to four soft toss hitting stations per side outside your cage for maximum training space in a confined area. This cage is the one.

FEATURES

- Standard sizes include 70' long for **baseball** and 55' long for **softball** by 14' wide and 14' high
- Heavy-duty **schedule 40 steel 6"** pipe uprights
- Net is **offset 3'** from pipe uprights
- Premium **UV-treated nylon cage net** reinforced with hems and grommets and **end panel over-flap entrance**
- Pre-assembled **overhead cables** and **ground cables** for quick and easy setup
- **Shared-pole multi-cage designs** available any way you need them — single, double, triple, quad, side-by-side, end-to-end

OPTIONS

- **Net Protector.** Net or vinyl panels hung on the batting end of the cage to reduce wear on cage net
- **Soft-Toss Attachments.** Set of sock-net hitting stations and attachment hardware for the ends or sides of cage
- **Artificial Turf.** Rubber infill artificial turf or standard artificial turf with 5mm foam pad
- **Pitching Screens.** Improve protection without restricting throwing motion with a Pitcher's L for right- or left-handed pitchers, or protect your pitching machine

BATTING CAGE SYSTEM

Standard sizes include 70' long for baseball and 55' long for softball by 14' wide and 14' high. Reference these tables for specific product codes for tensioned batting cages. *Contact us for other configurations.*

TUFF1 BASEBALL BATTING CAGES	
70' Single, 14'W	105-100-760
70' Double, 28'W	105-100-770

TUFF1 SOFTBALL BATTING CAGES	
55' Single, 14'W	105-100-780
55' Double, 14'W	105-100-790

- **Tensioned overhead cable** supports cage — no side poles or overhead structure to cause ball ricochet and no structure to snag or tear netting
- **3 support poles** at each end with **overhead center cable** completely supports the cage top against sag
- **Clamp-on cable anchor hardware** simplifies the installation and ensures correct frame assembly
- **Massive support pipes** are heavy-duty, hot-dip galvanized steel
- **Pre-assembled cables** to streamline installation are made using galvanized steel cable and components
- **Premium cage construction** includes #588 knotless nylon sides and top, heavy-duty #42A nylon end panels, reinforced hems with grommets, and 4' overlap entrance
- **All seams are reinforced** and top perimeter hems and center reinforcement have brass grommets for net-to-cable connections
- **Reinforced hem** at the cage bottom is clipped to a **perimeter ground cable** to hold the cage in place against wind and ball contact — keeps the entire interior area open for the pitcher and hitter *[a 4' over-flap doorway allows player entrance]*
- Easily add optional **soft toss stations** to create an integrated multi-station hitting complex allowing multiple players to practice safely without interfering with one another, call for information

Additional products are available to enhance your outdoor modular batting cage systems. Reference these product numbers when consulting with your Beacon representative.

BATTING CAGE NET PROTECTORS
