#### TABLE OF CONTENTS

## TUFFframe Modular Outdoor Batting Cage

**These cages have survived** some of the toughest weather mother nature has thrown at them thanks to their quality materials and construction. Heavy-duty uprights, prefabricated cables, and premium UV-treated nets make it all possible. At your request, we can also provide a wind speed

rating for your netting with signed and sealed engineering calculations for any state or region in the country. **Batting cage ships via freight and ready to install.**

Whether ordering "standard" or a batting cage to conform to your site, it's likely Beacon is your best and most affordable option. Tell us about your facility and your batting cage project and our team of experts will make sure it's done the way you need. Just send us your information.

#### PRODUCT FEATURES

- Standard sizes: 70' L **baseball** and 55' L **softball** by 14' W and 12' H
- Heavy-duty **schedule 40 steel pipe** uprights (see comparison image)
- **Cable offset units** separate net from pipe
- Premium UV-treated **knotless nylon cage nets** with **end panel entrance**
- Pre-assembled **overhead cables** with quick link attachments for easy setup
- **Cage layout** any way you need — single, double, triple, quad, end-to-end
- **Ground cables** hold net to the ground
- **12' x 8'** net protector included

## Nets & Frames

### FRAMES

**Only heavy-wall galvanized steel stands up to it all.** Designed around schedule 40 galvanized pipe uprights (see comparison image above). They're made from large diameter galvanized steel pipe, not the typical thin walled tubing used with other batting cages. Available single- or double-wide.

*\*If ordering uprights locally to save on shipping, we can provide specs for what you'll need.*

# NETS

**Our heavy-duty nets are tough, too.** Designed in-house and made in the USA. They all feature heavy-duty end panels, vinyl reinforced joints, grommeted hanging points in top section (perimeter and center), two large over-flap doorways and fully grommeted bottom edge for staking. Optional lead rope can be sewn into bottom hem. Prefabricated, steel cables support our premium nets and speed installation.

**“Beacon’s TUFFframe™ Modular batting cage is** extremely durable and unique. We have received many compliments from other teams because of the design and setup of our double-wide batting cages. We highly recommend working with Beacon to improve your complex.”

**Dick Flynn** – Director of Public Works, City of Waupun, Waupun, WI

# Accessories

**Add these options** to get the most out of your modular cage, see [Batting Cage Accessories](#) for additional options:

- **Tensioning Cuffs:** Secure the nets at the corners to further restrict wind interference.
- **Net Protector:** Net or vinyl panels hung on the batting end of the cage to reduce wear on cage net.
- **Soft-Toss Attachments:** Set of sock-net hitting stations and attachment hardware for one or both sides of cage — *stand alone units also available.*
- **Artificial Turf:** Standard roll sizes with various material options.
- **Ground Sleeves:** Lets you take down your cage completely, uprights and all.
- [Pitching Screens](#)

---

# Sleeves & Caps

Reference the list below for the number of optional ground sleeves & ground sleeve caps needed for your batting cage (sold individually):

- **for 70' Single:** 10 ground sleeves and caps
- **for 70' Double:** 15 ground sleeves and caps
- **for 70' Triple:** 20 ground sleeves and caps
  
- **for 55' Single:** 8 ground sleeves and caps
- **for 55' Double:** 12 ground sleeves and caps
- **for 55' Triple:** 16 ground sleeves and caps
