

PUDDLEsponge

MOISTURE REMOVAL

INSTRUCTION GUIDE

BEACON  **ATHLETICS**

Puddle Sponge

Your new Puddle Sponge will help you quickly remove standing water from high-traffic areas and low spots. Minor two-step assembly is required (below).

PARTS

– Puddle Sponge [3]

– Filter Cloth Cover [3]

ASSEMBLY

- 1 Slide one specially formulated sponge into one filter cloth cover.
- 2 Fold the top back to encase the sponge.

figure 1

INSTRUCTIONS FOR USE

- 1 Place the Puddle Sponge directly into the deepest area of standing water (*figure 1*). Allow sponge to absorb the water for about one minute.
- 2 Remove the Puddle Sponge and relocate to a grassed or paved area.
- 3 Roll the Puddle Sponge with your hands to compress and drain water from the sponge (*figure 2*). You may also use a mop wringer and bucket to more quickly remove rain water from the sponge.
- 4 With the standing water removed, you may now add a drying agent to help your infield dry more quickly and become a safe, playable infield.

STORAGE: Hanging Puddle Sponges by the fabric loop on the top edge. Allow Puddle Sponge to dry before the next use. With proper storage the Puddle Sponge should last several seasons.
