

PUDDLE SPONGE

ASSEMBLY GUIDE

BEACON  **ATHLETICS**

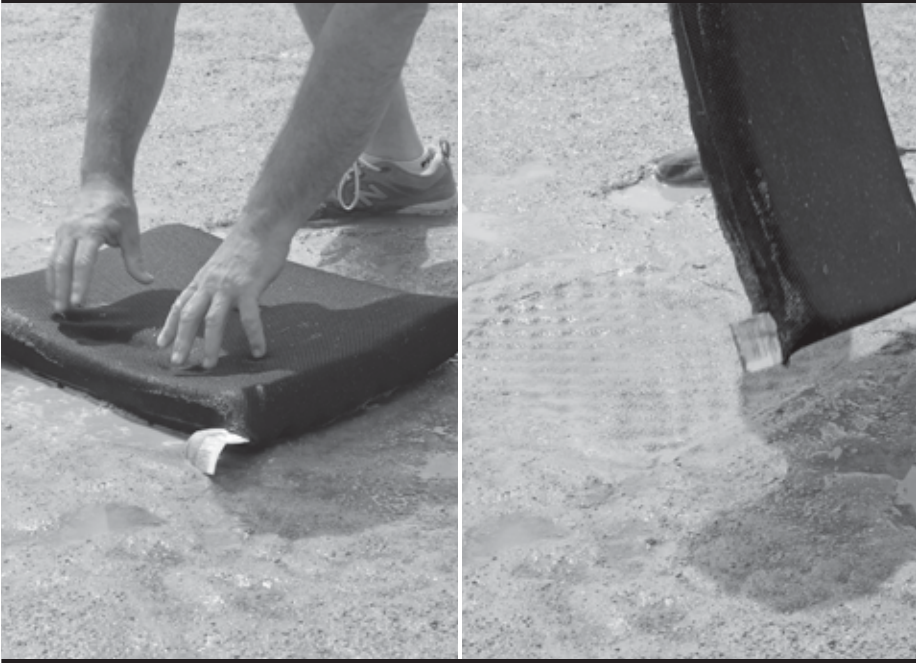

PUDDLE SPONGE

Your new puddle sponge will help you quickly remove standing water from high-traffic areas and low spots. *Minor two-step assembly required.* Please contact us online at beaconathletics.com/contact/ or call 800-747-5985 if you have any questions.

ASSEMBLY

- 1 Slide one specially formulated sponge into one filter cloth cover.
- 2 Fold the top back to encase the sponge.

figure 1

HOW TO USE

- 1 Place** the Puddle Sponge directly into the deepest area of standing water (figure 1). Allow sponge to absorb the water for about one minute.
- 2 Remove** the Puddle Sponge and relocate to a grassed or paved area.
- 3 Roll** the Puddle Sponge with your hands to compress and drain water from the sponge (figure 2). You may also use a mop wringer and bucket to more quickly remove rain water from the sponge.
- 4 Hang** the Puddle Sponge by the fabric loop on the top edge. Allow Puddle Sponge to dry before the next use. With proper storage the Puddle Sponge will last several seasons.
- 5** With the standing water removed, you may now add a drying agent to help your infield dry more quickly and become a safe, playable infield.

Consider these Beacon Built field maintenance products ...

ADJUSTABLE WEIGHT DRAG SYSTEMS!

Beacon X-Drag Field Weight Kit

Beacon Adjustable Weight Nail Drag System

Get the weight right with either the Beacon X-Drag Kit Field Kit or Adjustable Weight Nail Drag System. Both allow you to adjust the weight of your drag with Beacon Field Weights. The correct weight depends upon many factors, and field weights will put you in control.

LEVEL BOARD & SLOPE GAUGE

Beacon Level Board

Beacon Mound Slope Gauge

Improve your efficiency and accuracy with these tried and true Beacon products. The Level Board lets you cover a much wider area to cut down high spots, making your leveling more effective and the heavy-duty aluminum Mound Slope Gauge gives you an accurate indication of your mound slope.
