# of Panels	Overall Span
3	34'-0"
4	45'-0"
5	56'-0"
6	67'-0"
7	78'-0"

Features

- InstantEye™ brings an ingenious, staggered design which mimics the way trees resist wind damage, providing a less-expensive alternative to bulky permanent structures.
- Each panel is easy to quickly lower in storms, fully removable for off-season storage and features flexible battens to reduce wind load.
- Manual, removable winch hoist system makes setup and take down a fast and easy one-person job.
- Blocks out distractions to keep hitters safe.
- Each panel is sold separately.
- Optional stamped engineering report for an additional charge.
