

PROMOUNDS 5070 YOUTH PITCHING MOUND

The ProMounds 5070 Youth Game Mound is built with a durable, lightweight memory foam, and the 5070 game mound will hold up to the most demanding little league schedules. The pitching rubber is built down into the pitcher's mound, level with the top of the hill to give a smooth slope behind. Grooves on the bottom of the pitcher's mound give extra traction to reduce slipping. Designed with a handle to help lift the mound off the dirt.

Item Number:	MP5070
Category:	Youth Game Mounds
Environment:	Indoors & Outdoors
